

CENTRAL POINT HERALD

VOL. 4 CENTRAL POINT, OREGON, THURSDAY, AUGUST 26, 1909. NO 19

Experts Buzzard Mine.

Bert Randall who for several months past has been mining in the Willow Springs district has been engaged by Messrs Leever and Merritt, to take charge of operations at the Buzzard group of claims on Elk Creek.

Mr. Randall was out to the property last week and made an extensive examination of the mine and returned to town Monday to make his recommendations to the owners.

The work of sinking a shaft on the vein will be abandoned at present on account of water and they will begin drifting and will touch the vein at a point 125 feet lower than they are now working, and from present indications they will open a body richer than ever.

Notice to Students.

Examinations will be given by the school building for those who are conditioned in any subject on the following days: Thursday September 2nd 1st, 2nd, 3rd, and 4th grades Friday 3rd, 5th, 6th, 7th, grades Saturday 4th High School Students.

F. F. Cooper Principal

Auto Burns.

After losing their machine by fire, which entirely consumed it, as well as their baggage, Mr. and Mrs. G. W. Hight and son of Los Angeles, who were making a trip to Seattle overlaid, were forced to take the train on the Siskiyou Sunday afternoon and go on to Portland, where they will purchase complete new outfits. None of the party were injured.

The accident occurred at the south end of the Siskiyou tunnel. The machine, a large Tourist, suddenly burst into flames and before anything could be done was entirely consumed, together with what baggage the party had. They then walked through the tunnel and caught the evening northbound train. The gasoline tank was shot full of holes to keep it from exploding.

Mr. Hight is a capitalist of Los Angeles and had motored from that city to Siskiyou without serious mishap. —Medford Tribune.

Rich Pocket on Canyon Creek.

A wild story comes from Canyon Creek of the finding of a pocket from which \$68,000 was taken. It is said that the parties are keeping the matter quiet until they and their friends have opportunity to stake everything around that section. How true it is the Courier cannot say, but it is quite evident that there has been some important discoveries in that section. Canyon Creek has contributed large sums in gold in the years past. —Grants Pass Courier.

Granulated Sore Eyes cured

"For 20 years I suffered from a bad case of granulated sore eyes says Martin Boyd of Henriette, Ky. "In February, 1908, a gentleman asked me to try Chamberlains Salve. I bought one box and used it out two-thirds of it and my eyes have not given me any trouble since."

For sale by Mary A. Mee.

In Justice Court.

The famous sawdust case, which has been hanging fire in Judge Jones' court for the past two weeks or more finally came to an issue Monday and was threshed out before a jury with the result that G. W. Beale, the defendant, was acquitted. Clearance Reams, of Medford, appeared for the State and Gus Newbury, of Jacksonville, appeared for the defendant.

The case was one in which Beale was charged with the crime of dumping sawdust from his mill on a branch of Big Butte creek into the creek to the alleged detriment of the fish which inhabit that stream, the complaining witness being Deputy Game Warden, Sam Sandry.

Mr. Sandry, Charlie Gay, also a game warden, Geo. Butler and another gentleman from Medford, witnesses for the State, all testified to having seen a large amount of sawdust in the creek just below the mill during the month of July and also that there was evidence of the mill having been operated during the present summer. Witnesses for the defense did not deny that the sawdust was in the creek but they also swore that but 6000 feet of lumber was sawed at the mill this summer and that the dust from that run was impounded in a bulkhead in the mill and was not allowed to enter the creek except perhaps a small amount that may have sifted through the cracks in the retaining box. The dust in the creek, they testified had been there probably for 10 or 20 years and as the mill had not been operated for several years until this summer, the statute of limitation had run as to all the old sawdust. The jury accordingly brought in a verdict of acquittal.

Bartlett Pears \$3.50.

Bartlett pears from the Rogue River valley sold in New York Tuesday for \$3.50 a box with indications of like fruit bringing \$4.00 before the end of the week.

District Fair.

The District Fair of the Second Southern Oregon District Agricultural Society promises to be an event which will attract a great deal of attention. A year ago grounds were bought by Eugene Citizens and work has been going on there continuously so that now Eugene has a place for Lane County's Fairs as good as any city in the valley. The new grounds will be first used for Fair and Exhibit purposes next month, the District Fair taking place there from September 7th. to 11th inclusive, five days in all.

The Committee in charge of the advertising has just put up hundreds of handsome lithographs and the fair Association is working in earnest to make the fair a grand success.

Medford Domestic Laundry.

Will within two weeks start a twice a-week wagon service to Central Point to give the people of this town a satisfactory laundry service. Announcement of exact dates of collection and delivery will be made later.

Archbishop Visits Lake.

"No wonder the Indians of Oregon wove beautiful and fantastic legends about Crater Lake, for it is wonderful enough to awake the imagination of even a savage's mind." In this spirit Archbishop Christie returns to Port and from a trip through central Oregon and the Klamath country says the Portland Journal.

Called by the missionary duties of his church the archbishop has been making an extended tour of the interior of Oregon. On the trip of the Crater Lake country he went by automobile from Medford and returns charmed with the wonderful scenery and the great possibilities of the vast empire through which he journeyed.

"I am very sorry," said the archbishop "that the \$100,000 provided by the legislature for the construction of the Crater Lake road has been held up in the courts. In my mind the completion of that road would be a most powerful advertisement for the state. Crater Lake is one of the great wonders of nature. The surrounding country is wonderful and sublime. I was only there for a few hours in the early morning, but the short glimpse I had with the sun just rising across the lake is something I will never forget.

"The roads in the national park are good, and considering the roughness of the country, the roads leading to the lake are good, but if a road were constructed from Medford it would be a great thing for Oregon."

Old Newspaperman Dead.

SALEM, Or. Aug. 21—After a lingering illness lasting over several weeks, S. A. Clarke, historian, poet and pioneer editor, died at the Salem hospital last night, aged 82 years. He was born in Cuba in 1827, and received his education in New York and came around the Horn to California, thence on to Oregon in 1859. He resided in the then vil age of Portland for a short time and came to Salem where he took up a donation land claim south of the city and later took up his residence in Salem, where he has maintained his home ever since. He was married to Miss Harriet Buckingham, in Portland in 1862. Four children were born, three of whom, Mrs. N. H. Looney, matron of the State Reform School, William J. Clarke, editor of the Gervais Star, and Mrs. Sarah Dyer, of this city, survive. At various periods of his life he was editorial writer of several newspapers, among them being the Oregonian, the Record and the Statesman. He was an active worker in state politics, but never held any office of prominence. For several years he was Librarian to Congress, in Washington, D. C., and was forced to resign on account of his advanced age and enfeebled condition.

Nature Faker's Fancies.

The cassowary is a bird,
That's hard to capture, very;
Folks hunting for her plumes have made
The cassowary wary.

Kansas City Times.

But once a cassowary strolled
Too near an alligator,
And with one wriggle, snap and gulp
The alligator ate her.

Chicago Tribune.

The dromedary roamed about,
Or toiled to fetch and carry;
Until some Yankee fitted out
A dromedary dairy.

Indianapolis News.

But dromedaries oft are shy
And this one loathed a spider—
She ran away when one came by
Because the spider eyed her.

Cleveland Leader.

Behemoth and some dynamite
Got in a serious fuse;
The detonation left the hip
Popotamus a muss.

Mammoth, Ill., Atlas.

An anaconda told a hen
That of her he was fonder
Than all things else. But she soon
Found

The anaconda'd opened her.
Middletown, Conn., News.

A crab that crossed the continent
From Maine ptomaine got rabid;
Because they cracked him on the skull
It made the old crab crabbed.

Godwin's Weekly.

A boa constrictor ate a girl
Soon after he had licked her;
She disagreed with him, which made
The boa constrictor strictor.

Capital Journal.

A monkey once was in a show—
A soldier brought his bunkie,
Who stood for hours near the cage
And watched the monkey monkey.

Medford Tribune.

A Rainbow trout in river Rogue
Bit at a fly, not slow,
The angler yanked him out and cried,
"Be my Rainbow," Rainbow.

More New Buildings.

I. C. Robnett is preparing to erect a modern dwelling this fall at the corner of Second and Ash. The house will be strictly modern in every respect and will contain seven rooms besides closet, bath, pantry, storage, etc. The location is slightly and the improvement will be of general value to the town.

I. F. Williams, owner of the property in which the postoffice is located, has decided to move the present building to the back of the lot temporarily while a new brick structure is to be erected in to be erected in its place. The brick will be but one story high at present but it will be built with a view to building it higher should the occasion arise to demand the additional room. The building will be designed as a convenient home for the postoffice and Mr. Williams expects that by building a brick the office can be retained in that location indefinitely.

School Has Twelve Grades.

Persons interested in the Central Point public schools should pay no attention to the erroneous statement that has lately been published to the effect that our school has but eight grades. The school includes the full high school course up to and including the twelfth grade and is recognized as the equal in efficiency of any public school in Southern Oregon.

Estray Notice.

Came to my place at the old Hemroth place 3 1/2 miles east from Central Point, about four months ago, a red heifer, aged about four years, with crop off right ear. Also at about the same time there came to the same place one white barrow hog without marks, will weigh about 300 pounds. Owner or owners of these animals are hereby notified to come forward, pay charges and take the animals or they will be advertised and sold according to law.

Harry Caton,
Medford, Oregon.

Pacific & Eastern Sold.

The sale of the Pacific & Eastern railroad to John R. Allen, of New York was consummated Tuesday morning when Mr. Allen paid to Dr. J. F. Reddy, receiver of the old Medford & Crater Lake road, \$77,425 for \$100,000 worth of bonds of the company.

It is now claimed that the extension of the road is absolutely assured.

Chamberlains Colic, Cholera and Diarrhoea Remedy Never Known To Fail.

"I have used Chamberlains Colic, Cholera and Diarrhoea remedy since it was first introduced to the public in 1872, and have never found one instance where a cure was not speedily effected by its use. I have been a commercial traveler for 18 years, and never start out on a trip with out this, my faithful friend," says H. S. Nichols of Oakland, Indian Territory.

Mr. Hutchason Returns from New York

Mr. Hutchason, the well known and efficient buyer for the Hutchason Co., formerly Baker-Hutchason Co., has just recently returned from a tour of the east, visiting all of the principal cities and spending about ten days in New York.

Mr. Hutchason made this trip solely in the interest of his store and he tells us that he is ever so well pleased with the results. Contracts were signed with one of the best buying agencies in New York, which will enable this store to buy its merchandise always in the lowest market and at the lowest prices.

A reporting agency was added to the list so that a more careful tab can be kept on the new styles and changes which take place in the East and New York.

A very fine milliner also expert alteration lady have been employed and this store will stand second to none in this section in points of efficiency in these departments.

In our talk with Mr. Hutchason we found him very optimistic, in fact enthusiastic as to this store's future.

If people come to his store to look he says they can't help buying what they need for the qualities and prices will be irresistible.

We heartily commend the Hutchason Co. to all of our readers and can assure them that they will always get a square deal.

If anything proves unsatisfactory you can absolutely bank on it that this store will be only too glad to make good when you explain.

Disagreeable At Home.

Mots of men and women who are disagreeable with others get cranky at home. Its not disposition its the liver. If you find in yourself that you feel cross around the house, little things that worry you, just buy a bottle of Ballards Herbine and put your liver in shape. You and everybody around you will feel better for it.

Price 50 cents. For sale by Mary A. Mee.

Table Rockets.

E. H. Davis and family, who have been respected residents of this community for several years left Thursday for their new home in the vicinity of Forest Grove. Our best wishes go with them.

Geo. Marksberry, traveling salesman for the J. P. Watkins remedies, called on his customers here last week.

S. C. Collins has moved his family into the house on the Ray property recently vacated by E. H. Davis.

Mrs. W. R. Byrum's mother, Mrs. Saltmarsh, arrived Monday at the Byrum home for a lengthy visit.

Now that the tariff question is settled for the time being Mrs. Benton Vincent has started her loom and is turning out the good old fashioned carpets and rugs of our grandmother's day.

For Sale.

All kinds of plums and prunes at one cent a pound.

S. M. Nealon,
19d22 Table Rock.

Ralph Dean, of Willow Springs precinct, left a prune branch at the Herald office a few days ago that has since been in exhibition in the window. It is a curiosity in it as well as a good sample of the productivity of Rogue River valley fruit trees. The branch is less than four feet long and has nearly if not quite 200 full grown prunes but so densely is the fruit packed around the branch that it is almost impossible to count them accurately. Mr. Dean has one of the finest locations in the valley the home having been in the Dean family for more than fifty years.

Intense Colicky Pains Relieved.

"For some years I suffered from intense colicky pains which would come on at times and from which I could find no relief," says I. S. Mason of Beaver Dam, Ky. "Chamberlains Colic, Cholera and Diarrhoea Remedy was recommended to me by a friend. After taking a few doses of the remedy I was entirely relieved. That was four years ago and there has been no return of the symptoms since then."

Sold by Mary A. Mee.
