Big Profits Realized By Oregon Hop Growers.

(Special Correspondence) Hop growers are having their innings with the prevailing quotation for the Oregon crop at 25 cents per pound. The average price last year was 7 cents, in 1907 and 1906 12 cents. The last high priced year was 1904, when the Oregon hop went to 45 cents and away back in 1882 there were sales as high as \$1.25 per pound. In some respects, the market this year resembles that of 1882.

Light crops all over the world are responsible for the prevailing high prices. The Oregon crop is the lightest since 1895. The estimate of 70,000 bales for the year's yield in this state is considered about right, with Washington's crop 15,000 bales, compared with 17,000 bales last year, and California has about 90,000 bales this year compared to 68,000 bales last season.

A fast mail train, between Chicago and Portland that will bring Eastern mail to Oregon in much less time than is now required has just been put on by the Harriman lines. The train will carry no passengers and will make the run between the two cities in 60 or 62 hours, slipping from 10 to 12 hours from the present schedule. In this way the Harriman lines expect to meet the shortened schedules of the Hill roads, which have put on fast trains from St. Paul to Puget Sound.

Ground will be broken early in December for a big cement plant near Portland that is expected to contribute largely to the supply of this building material used in this section. The new industry will have a capacity of 1500 barrels daily at the start, with provisions for enlarged facilities later. It will cost \$1,000,000. The plant will consist of 12 buildings, covering about 12 acres, and will be located at Oswego a short distance south of the city. It is thought this field here for a cement factory is unequalled, because of the convenient source of raw materials and the big market for the manufactured product.

Astoria is in the lime light because of a splendid building record during the first nine months of the year. Improvements carried on by the municipal and business interests there during 1909 total over \$1,000,000. This is a splendid showing and with such a spirit shown, Astoria's outlook is very bright.

More Than Enough is Too Much.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. For sale by Mary A. Mee.
