their personality on the world. Could they have broken the exclusiveness of higher society without the stamp of refinement and culture—fine clothes. Another point is that true style requires quality. It is next to impossible to produce fashion without using higher grade material which will stand wear and keep its shape. So that it pays to buy fine clothes. When we decided to carry men's clothing many brands were considered. After much debating we selected the

### Money in The Banks

For the first time in the history of American banking, statements have been obtained showing in detail the condition of practically every banking institution in the United States at a given hour. The national monetary commission has just completed and made public the tabulated results of the investigation of the condition of the various classes of incorporated banks of the country, the report being made on a uniform blank at the close of business April 23, 1900.

The institutions reporting include 6300 National banks, 11,319 state banks 1703 mutual and stock savings banks, 1,97 private and 1079 loan and trust companies.

The total resources of all make a stupendous total of \$21,100,000,000, and the analysis of resources and liabilities show loans, \$11,273,000,000, investment on bonds, etc., \$4,614,000,000, due from banks \$2,562,000,000, cash on hand, including \$809,000,000 in gold coin and certificates, \$1,432,000,000, other resources \$1,094,000,000, capital \$1,800,000,000, surplus and profits \$1,833,000,000, due to banks \$2,484,000,000, deposits, including government deposits, \$14,106,000,000, other liabilities, \$370,000,000.

The total bank resources of the entire country average \$237.24 per capita. The state of New York leads with \$676.07 per capita.

### A Good Booster

Speaking of the wide publicity being given the recent award of the sweepstakes prize by the National Apple Show at Spokane to a car of Rogue River Spitzenbergs, H. E. Tronson owner of the prize producing orchard tells the following: "I am getting marked papers from everywhere mentioning the winning of the Spokane prize, and some of the comments are really amusing, one of them in particular, I have really forgotten the name of the paper, says that after taking five cars of apples from five acres, the sweepstakes car was selected from what was left. Now, I believe the editor of that paper is capable of holding down a job even in Southern Oregon. He certainly has a fine imagination and here the facts would keep him so busy that he would not be compelled to strain it."
