J. E. Day is spending the week in this neighborhood closing up orders for fall delivery. An unusual demand for pear stock is nearly depleting the nurseries. There is small prospect of any being left for the spring trade. The Oregon Nursery Co. can supply all demands for the month of October. Winter Banana apples are nearly all sold, owing to their popularity. 26 1t p

A. M. Ford went to Butte Falls Sunday where he expects to spend the winter. Mr. Ford goes to the mountain town primarily for his health, and if the change in climate and altitude proves beneficial he will engage in business and remain there permanently.

MUST CITIES BE UGLY?

This is the Question That Confronts People Throughout the Country.

Must the cities be ugly? This question is propounded in Harper's Weekly by Arnold W. Brunner, who has this to say, among other things, on the subject:

"So much attention has been paid to the individual that the community has been allowed to suffer, and the conservative and jealous care of private interests has been carried to such a point that most necessary improvements are delayed or entirely defeated.

"However, we do not despair for our future. The love of beauty is growing rapidly, and, while it was once thought to be the prerogative of the rich, it is now understood to be the right of

every citizen. The elevation of thought and mind that comes with association and a belief in beauty is apt to be disregarded in this materialistic age.

"The time has come when the street system cries aloud for readjustment. The demand for new parks and small open squares to provide breathing spaces for the poor and playgrounds for the children has met with a general acceptance. Well planned schools arranged so that sunlight will cheer and purify every room and corridor are now being erected, and nothing satisfies us that falls short of the new standard. Beautiful interiors, harmoniously colored, with mural paintings in the assembly rooms, teaching the lessons of history and art, are willingly provided for our public schools.

"Problems like these can only be solved by a consistently prepared plan for the entire city, by a scheme for the general arrangement of streets and thoroughfares devised by men who do not believe that a bridge may be independent of its approaches and that a park needs no boulevards to reach it."

Help Your Town.

Help to make the city fairer.
You can do it if you try,
And you'll be a profit sharer
In the splendid by and by.
Don't forget while you are grumbling
That you might be something more.
Let there be no future stumbling
Over obstructions at your door.

Help to make the town more splendid.
Do the part you have to do.
There is much that may be mended
Through a little aid from you.
Help decrease the dirt that's blowing;
Help to purify the breeze.
When it happens to be snowing
Clean your sidewalks, if you please.
—Chicago Record-Herald.

Medford. Oregon.

W. W. Nickerson of Klamath Falls was in town Tuesday looking over the town with a view to locating here. Mr. Nickerson has recently disposed of a mercantile business in Klamath Falls and for several days has been looking over the various towns of this valley, with the result that he has decided that Central Point offers better realty investment and business opportunities than any other town in the valley. He is a live wire and if he locates here he will no doubt prove a welcome addition to the booster element of Central Point.

Eli Jones and Mr. Painter returned Friday from a successful deer hunt in the Evans creek country. Mr. Jones bagged a fine, fat specimen, and so peculiar were the circumstances of the buck's taking off that it took Mr. Jones sometime to determine whether his shot had took effect or the deer had died from heart failure.

The ladies of Rebekah lodge will give an old fashioned candy pulling Oct. 18th in the lodge room. Each lady is expected to bring one invited gentleman or submit to a 5c fine and cost.
