## NEWS FROM OUR NATIONAL CAPITAL

## Passage of Parcels Post Bill by Congress Regarded as Almost Certain.

Washington.—Legislation providing for a general parcels post throughout the United States and its possessions, except the Philippine Islands, virtually is certain to be enacted by the present congress, perhaps before the conclusion of this session, in the opinion of Postmaster-General Hitchcock.

In the judgment of the officers of the postal service, the new bill represents the most scientific plan yet devised for a parcels post. It provides for a parcels service throughout the country on both rural routes and city carrier routes. It consolidates the third and fourth classes of mail matter and raises the weight limit of parcels to 11 pounds.

The rate to be charged for articles carried in the rural route service and city carrier service is five cents for the first pound or fraction of a pound and one cent for each additional pound or fraction of a pound. For the general parcels post service, which covers all mail transportation other than local delivery by rural or city carriers, graduated rates would be fixed based on distance.

Proceed to Impeach Hanford. Berger, of Wisconsin, the socialist member of congress, began proceedings of impeachment against Judge Hanford, on the federal bench at Seattle, who recently revoked the citizenship of Leonard Olsson, of that city, on the ground that at the time he was admitted as a citizen he was not as a matter of fact willing to uphold the constitution of the United States, as the law requires.

Representative Berger charged Judge Hanford with "high crimes and misdemeanors," citing a long series of decisions which he characterizes as unlawful, and also alleges that the judge is an habitual drunkard. The house adopted Berger's resolution directing the judiciary committee to make an investigation.

Cuba Must Suppress Insurrection. The United States government, it is believed, has given President Gomez of Cuba a week in which to suppress the negro insurrection.

Five thousand American troops are resting on their arms awaiting orders to embark for Cuba, but the war department stated that the soldiers would not move until the force of American marines landed at Guantanamo had proved insufficient to cope with the situation. Cable messages show that the rebellion is spreading rapidly. Outbreaks are reported near Havana.

Nation Honors Columbus. The United States paid homage Saturday to the discoverer of America by the unveiling of a magnificent memorial fountain erected here by congress to Christopher Columbus, the Genoese navigator who opened the portals of this hemisphere to civilization.

Standing at the very gates of the nation's capital, the memorial seemed a gigantic magnet drawing a representative throng from every corner of America. One hundred thousand visitors crowded the city, according to the estimates of committees conducting the ceremonies. Half of that number were Knights of Columbus, gathered to pay tribute to the patron of their order.

Would Tax Pistol Toters. Representative Sisson of Mississippi has introduced a revenue measure which would impose a heavy tax on persons carrying pistols and vendors of deadly weapons. His bill stipulates that from July 1, 1913, every such weapon stored in any warehouse, wholesale or retail establishment in the United States, must bear a revenue stamp which will cost \$2.50 and 25 per cent ad valorem in addition.

National Capital Brevities. The Borah-Jones three years' home-stead bill was signed by President Taft in the presence of a delegation of western congressmen.

The interstate commerce committee reported favorably the bill to prevent reproduction of the Johnson-Flynn prize fight moving pictures.

New regulations of transportation of baggage proposed by nearly every railroad in the United States, which, in effect, would advance the rates on "excess" were suspended by the interstate commerce commission.

The navy department ordered Admiral Osterhaus to proceed forthwith from Key West to Havana with one dispatch ship and one other ship. These orders were issued after the receipt of a dispatch from Minister Beaupre reporting that conditions in Havana had assumed the character of a race war.

The house voted 144 to 101, not to accept the senate amendment to the metal tariff revision bill, which would repeal the Canadian reciprocity pact and fix a universal duty of \$2 a ton on print paper. The house accepted two senate amendments reducing the duty on pig iron and on certain alloys. The bill will again go to conference.

## EXPERIENCE

The experience of the ages has been that the true application of any principle is not by theory and experiments on the human race, but by that divine gift, born in man and not to man, and known as the natural ability to do, rather than the acquired ability.

We want to meet you and have you judge for yourself as to the position we assume in this matter. It will be for your good as well as for ours.
