While crossing the S. P. tracks at the Pine street crossing Tuesday morning the Robinett automobile was struck by the south bound motor but beyond a slight damage to the top of the Ford car no harm was done. A freight train standing on the siding hid the approaching motor from Mr. Robinett who was driving until the machine was upon the tracks. The motor struck the rear of the car but it was far enough across to escape serious damage.

At a recent meeting of the county court Wm. Gerig, consulting engineer of the Hill railroads and manager of the Pacific & Eastern, was appointed consulting engineer for permanent road work and he will look after the county's interests in the construction of the Pacific highway. The county court deems this step necessary on account of so much complaint being made about the progress and mode of construction on the road between this city and Medford. The value of having a man on the job who is thoroughly versed in road work is recognized and Mr. Gerig was appointed to the position.

Dr. Samuel A. Mulkey who has been in the city for several days has purchased the dental practice of Dr. E. Davis in this city and will locate here permanently. He will occupy the same office rooms in the Rostel building where Dr. Davis has had his office but will have them remodeled to a considerable extent. Dr. Mulkey was formerly located at Sheridan, Oregon, where he lost his office and equipment in a fire which practically burned out the town about a year ago. His family will come as soon as arrangements for moving can be made. Dr. Davis states that he has not yet decided what he will do but for the present will continue to call Central Point home although the most of the summer will be spent in auto trips to various places of interest in Oregon and neighboring states.

Talent is planning on a real old fashioned Fourth of July celebration and the committees for the different features have been appointed and are at work. The outline of the program is as follows: Races in the morning on the Talent school grounds. At noon everyone will be at the Widener grove to have lunch. After lunch there will be a ball game between the Talent team and the champions of the Rogue River Valley League. Two bands will be present to furnish the noise. After he game speakers will give talks. Immediately following, the pony races will be held and the Gun club shoot and the "great sideshow." In the evening a 60x80 platform will be used for the purpose of dancing. There will also be a large bonfire where songs and a regular good time will prevail.

The residence near the old creamery was burned Sunday night. The fire was first noticed about 12:30 by nearby residents and an alarm turned in. The fire company responded promptly and hose carts and apparatus was rushed to the fire with automobiles but the blaze had gained such headway as to make it useless to turn the water on the building. The house was far enough from other buildings so that there was no danger of the flames spreading and there would have been no advantage in checking the blaze on the ruined building. The property formerly belonged to Will Jones but lately has been transferred several times and now belongs to Louis Carlile of Medford who was in the city Tuesday to arrange for getting another house on the premises as it had been rented to a family for immediate occupancy. A house has been purchased and will likely be moved to the place. The origin of the fire is unknown. Insurance of about \$200 was carried.

The Medford degree team of the I. O. O. F. lodge came down Saturday evening to put on the work of the second degree for eight candidates in the local lodge. After the work of the evening was finished a social time was indulged in and refreshments served by the Odd Fellows. Those present from Medford were: E. E. Wilson, John A. Perl, Fort Hubbard, J. E. Domiek, G. W. Howard, A. N. Hilderbrand, P. E. Redden, W. L. Miller, S. T. Howard, Jr., G. A. Hoover, George Bishop, L. E. Watkins, Samuel Bateman, J. W. Mitchell, J. L. Demmer, Dr. H. J. Schmidt, Dr. J. D. Rickert, and Joseph O. Grey, all of Medford; O. C. Lee, S. A. Mulkey, of Sheridan; A. G. Stewart Winnebago; N. J. Wiley, Miami; and P. H. Dailey, Eagle Point.

But little interest was shown in the annual school meeting and but few voters cast their ballot. W. A. Cowley was re-elected as director for another term as was also J. W. Jacobs as clerk. It would seem the residents of the district are pretty well satisfied with the way the affairs of the district are handled, as they should be, but a little more interest shown at the annual meeting would be appreciated by the board. In the clerk's annual report it was shown that the district was in good shape financially with the sum of \$7,348.97 now on hand. Through consolidating certain grades and rearrangement of the teaching staff the item of teachers' wages was reduced from \$8,686.25 in the preceding term to \$8,340.00 for the year just closed, showing a saving of \$346.25 on this item during the term.

Medford city officials have issued a warning to all autoists that lights must be kept burning on all machines either standing or running on the streets after dark. The police report that many drivers are not particular about lighting up and the order has gone out to pinch offenders. Consequently it will stand Central Point autoists well in hand to look to their lights when in Medford after night.

To Organize Farmers' Fruit Selling Agency

On Saturday, June 20, representatives of fruit growers associations at Forest Grove, Dilley, Corvallis, Eugene, Yoncalla, Sutherlin, Cottage Grove, Dallas, Salem, Brownsville, Independence, Gresham, Monmouth, Newberg, Springfield and Roseburg will attend a meeting to be held in the green parlor of the Portland Commercial Club for the purpose of organizing a sub-central branch of the North Pacific Fruit Distributors, will elect one member of the board of managers for the Spokane show and will complete the details of a campaign for marketing the 1914 crop of fruit in Western Oregon.

H. C. Sampson, secretary of the N. P. F. D., who is directing this movement, said: "Briefly stated, the distributor in this case will be the farmer himself in the selling game. It is purely co-operative. The organization will sell on a commission of 10 cents per box, which is sufficient to pay the expenses of salaried agents in all parts of the world and of 67 special representatives. Through these agents we distribute the fruit to all parts of the world, keeping markets fully supplied but never overloaded."

In order to stimulate interest among stock breeders in Oregon, the Oregon Exposition Committee announces that \$10,000 will be set aside as prizes for the best stock from this state exhibited at San Francisco next year. It is hoped that on completion of the budget it will be possible to increase this sum to \$15,000. This will be in addition to the \$175,000 which will be distributed in livestock prizes by the authorities of the exposition.
It having been asserted that a large part of the land in the Umatilla Project is infertile and non-productive, the Oregon Conservation Commission has had a representative go carefully over the entire section, and his report, just sent in, indicates that under intelligent management and cultivation that soil is extremely productive and that the majority of the farmers are doing well. He states that the bank at Hermiston has in the past 18 months loaned \$15,000 to the farmers for the purchase of stock and the notes are being promptly paid at maturity.
Business men of John Day are organizing in an effort to secure new enterprises in that valley. According to a statement issued by them, there are exceptional opportunities for a roller flouring mill and for an up-to-date creamery. They say that all flour raised in Grant county has to be hauled in from distant outside points while grain of all kinds is shipped out of the valley, and that in John Day and Bear valleys a large amount of milk is produced a large part of which is hauled 40 miles to Prairie City, the nearest creamery. Business men and property owners are ready to lend all possible assistance to the establishment of these industries.
