It is Not Too Late to Hatch Chickens

If you want to get a start in the Poultry business and desire the Best All-Purpos chicken you will make no mistake in choosing the

Anaconda

Like all our stock, we have taken the best we could secure to build up our flock in the poultry yard. The S. C. This breed has been a money-maker for us. They have produced more eggs than any of the others and make two pounds weight nearly as quick and at less expense than any of the larger breeds.

Our price for eggs is \$1.50 for 15 for hatching, or \$6.00 per 100. Baste Chicks for \$15 per 100. Send for catalog.

Hard to Understand.

Arnold Daly says that once, when he was talking to Bernard Shaw, the latter admonished him, "If you wish to get on in the world never take anybody's advice."

"This," said Daly, "resolved itself into a paradox, for if I took Mr. Shaw's advice I was taking somebody's advice, and if I took somebody's advice then I should never get on, yet if I didn't take Mr. Shaw's advice I shouldn't get on, and—well, I came to the conclusion that Bernard Shaw was one of those people whom, as Lord Dundreary says, 'no feller can understand.'"—Baltimore Sun.
