ANOTHER HUMILIATION

The armed neutrality bill, authorizing the president to arm American ships for protection was slaughtered in congress by a dozen senators led by LaFollette and Stone. The wish of an overwhelming majority of the senate was defied. Their refusal to back up the president in this national crisis is inexcusable. To create division now where unity should prevail will cause nations across the sea to believe that this country is not behind the president. To refuse the president the authority asked for to defend the rights of Americans, is a spectacle of national humiliation, one that will do more to relegate the peace-at-any-prices to oblivion than any other fool move they could have made.

LEGAL RATES

For the information of newspapers and attorneys it may be well to state that the last legislature passed what is known as the "legal rate" bill. This law provides that the rate clients will pay the newspapers for publishing citations, summons, sheriff's sales and the

like is 65 cents for each folio of 250 ems of the type in which the legal is set, on an eight point basis the type practically all country newspapers use, that rate is the exact equivalent of 5 cents the line per issue. The law requires that the newspaper, in making proof of publication, shall swear, in addition to the matters now required by law, that the charge for the publication was at that rate, giving the exact sum, on that basis, for the identical publication certified to. That fixes the rate the same for all newspapers, large or small, and no newspaper can charge more or less than that, except for "charitable purposes," and when for charity the affidavit must so set it forth. Heretofore rates differed in different papers and in different parts of the state, some charging as low as 3 cents per line, while others charged as high as 10 cents the line. That condition proved perplexing to both clients and attorneys. Under the new law the attorney can give his client the exact cost of the publication matter before the case is started and will be a benefit to all concerned.

Form a group of damphool politicians to accomplish some piece of disgraceful legislation and you will be quite sure to find the name of Harry Lane, senator from Oregon in the list.

Gentle Influence.

"Do you think going into politics improves a man's disposition?"
"As a rule," replied Miss Cayenne, "he is obliged to look pleasant at least often enough to have his picture taken for campaign posters."—Washington Star.
