## TEACHERS CONVENTION TO BE HELD IN OREGON

Oregon is to be favored by having the National Educational Association meeting at Portland during the week of July 7 to 14, 1917. This is the greatest educational organization in the world and every teacher should attend.

The great conflict in Europe will pre-

vent many from going across the waters, but the cross-country roads to the wonders of the west will offer no barriers. An effort is being made to induce every teacher in the United States to come to that meeting this summer, and incidentally visit some of Oregon's scenic wonders.

In order that teachers in the East be encouraged to come school children in this county have been asked to write to teachers in the East telling them of this great educational meeting in Portland, this summer. A form letter has been prepared for the children's use but they are asked to use their own ideas if they wish. The form letter will be published in next week's Herald.

Ralph Russell of Meadows was in town Wednesday.

## A Word With You

As to the superior quality of our products all are now familiar either by experience or hearsay, but as to our prices, allow us to say, that while all other brands of flour have recently advanced in price, our Mt. Pitt brand still remains the same, viz.—\$2.15 per sack in small lots.

However, if the price of Mt. Pitt is too rich for your blood try our "Favorite" brand which sells at \$1.90 per sack at the mill only. Its a winner.
