TEST ALL SEED CORN
Yield Per Acre Can Be Greatly Increased Thereby.

Work Can Be Done in Late Winter or Early Spring When Time Otherwise Would Be Lost—Simple Tester Described.

Mr. Average Farmer, is your time worth \$4 an hour? That sounds like a get-rich-quick scheme, doesn't it? Well it isn't. J. C. Hackleman of the Missouri college of agriculture figures that you can make that much testing seed corn. The average Missouri farmer raises about twenty-six acres of corn each year. He fails to test his seed corn whereby he loses \$1.50 (this is a conservative estimate) an acre. Mr. Hackleman says that about ten hours of actual labor would be required to test the seed for the 26 acres. By such testing the yield can be increased at least \$1.50 worth. Hence the time required to test the seed is worth about \$40, or about \$4 an hour. The more corn a farmer grows the more money he can make by the test. The man who raises 100 acres can increase

Corn From Tested Seed.

his earnings at least \$150. This is practically clear gain since testing is done during late winter or early spring when the time would otherwise be lost.

Seed corn testing is comparatively easy. The ears that have been previously selected for seed are labeled to correspond to the spaces occupied by the grains from those ears in the germinator. If any of the samples of grain show poor germination, the ear from which they came can be found from the label on the space the grains occupy, and can be eliminated. One of the simplest testers is the sand box or sawdust. It consists of a box about 4 inches deep and 30 inches square, with about two inches of sand or sawdust in the bottom to hold the moisture or to keep water from standing around the corn. A piece of old sheeting or other cloth that will absorb moisture, but will not allow it to stand on the surface, should be stretched over the surface and marked off into 2-inch squares. Put six kernels from various portions of the middle of each ear to be tested into one of these squares and give the ears and squares corresponding labels. Cover the box to prevent drying and keep it at room temperature—about 70 degrees Fahrenheit—for six days, then find the ears from which kernels failed to germinate, throw them into the feed box and retain those that showed a good strong test.

Figures, based on the acreage and yields in Missouri during the last eight years, indicate that the losses incident to neglect of seed corn testing will amount to about \$11,000,000 this year. That amount is worth saving.

SOILS NEED MUCH DRAINAGE
Results Given of Surveys Made by United States Department of Agriculture.

"According to the soil surveys made by the United States department of agriculture about 65 or 70 per cent of soils here need drainage," said Professor Crabb. "Of this amount from 25 to 30 per cent is badly in need of drainage and from 40 to 50 per cent would be greatly benefited by drainage. Orchard surveys that have been made by the New York state department of agriculture show that from 25 to 30 per cent of the orchards are only fairly drained, 10 to 12 per cent are poorly drained and 2 to 10 per cent are badly in need of drainage."

SWINE CRAVE FOR MINERALS
Supply of Coal, Wood Ashes and Charcoal Should Be Kept Before Animals at All Times.

Provide plenty of stone coal, wood ashes and charcoal for the swine. You've seen the sows trying to eat the soft stones they root up. You have heard them cracking something they found in the ground. They want minerals and especially lime.

THICK, GLOSSY HAIR FREE FROM DANDRUFF
Girls! Try It! Hair gets a ft, fluffy and beautiful—Get a 25 cent bottle of Danderine.

If you care for heavy hair that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scrub rids the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fall out, loosen and die; then the hair falls out and die. Surely get a 25-cent bottle of Knowlton's Danderine from any drug store and just try it.

Never Again.
A recruiting sergeant stationed in the south of Ireland met Pat and asked him to join the army. The latter refused, whereupon the sergeant asked his reason for refusing.
"Aren't the king and the kaiser cousins?" asked Pat.
"Yes," said the recruiting sergeant.
"Well," said Pat, "begorra, I once interfered in a family squabble, and I'm not going to do so again."

Logical Conclusion.
"He is not out of the woods yet."
"That is why they think they can tree him."—Baltimore American.

FOR ITCHING, BURNING SKINS
Bathe With Cuticura Soap and Apply the Ointment—Trial Free.

For eczemas, rashes, itchings, irritations, pimples, dandruff, sore hands and baby humors, Cuticura Soap and Ointment are supremely effective. Besides they tend to prevent these distressing conditions. If used for everyday toilet and nursery preparations. Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

With the Fingers! Says Corns Lift Out Without Any Pain

You reckless men and women who are pestered with corns and who have at least once a week inflicted an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn or callous the soreness is relieved and soon the entire corn or callous, root and all, lifts off with the fingers. Freezone dries the moment it is applied, and simply shrivels the corn or callous without inflaming or even irritating the surrounding tissue or skin. A small bottle of freezone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callous. If your druggist hasn't any freezone he can get it at any wholesale drug house for you.

THE NEWEST REMEDY FOR Backache, Rheumatism and Dropsy.

Kidney, Bladder and Uric Acid troubles bring misery. When the kidneys are weak or diseased, these natural filters do not cleanse the blood sufficiently, and the poisons are carried to all parts of the body. There follow depression, aches and pains, heaviness, drowsiness, irritability, headaches, chilliness and rheumatism. In some people there are sharp pains in the back and loins, distressing bladder disorders and sometimes uric acid dropsy. The uric acid sometimes forms into gravel or kidney stones. When the uric acid affects the muscles and joints, it causes lumbago, rheumatism, gout or sciatica. This is the time to try "Anuric."
During digestion uric acid is absorbed into the system from meat eaten, and even from some vegetables. The poor kidneys get tired and backache begins. This is a good time to take "Anuric," the new discovery of Dr. Pierce for Kidney trouble and Backache. Neglected kidney trouble is responsible for many deaths, and Insurance Company examining doctors always test the water of an applicant before a policy will be issued. Have you ever set aside a bottle of water for twenty-four hours? A heavy sediment or settling sometimes indicates kidney trouble. The true nature and character of disease, especially those of the kidneys and urinary organs, can often be determined by a careful chemical analysis and microscopic examination—this is done by expert chemists of the Medical Staff of the Invalids' Hotel. If you wish to know your condition send a sample of your water to Doctor Pierce's Invalids' Hotel, Buffalo, N. Y. and describe your symptoms. It will be examined without any expense to you, and Doctor Pierce or his Staff of Assisting Physicians will inform you truthfully.

KNOW YOURSELF!
Read all about yourself, your system, physiology, anatomy, hygiene, simple home cures, etc., in the "Common Sense Medical Adviser," a book of 1068 pages. Send to Dr. V. M. Pierce, Buffalo, N. Y., three dimes or thirty cents in one-cent stamps for a cloth-bound copy.

10 CENT "CASCARETS" IF BILIOUS OR COSTIVE
For Sick Headache, Sour Stomach, Sluggish Liver and Bowels—They work while you sleep.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months.

HIT AND MISS
Some men never use kind words if there is a club handy.
An eccentric woman is one who prefers comfort to style.
It flatters a married man to tell him that he doesn't look it.
When fame comes to the average man it roasts upon his monument.
Never lend money to a stranger. If you must have financial transactions with him, borrow.
"Know thyself" is all right as a proverb, but some men who know themselves do not know much.
If your heart prompts you to do a good deed, do it immediately before you have heart failure.

PURE WATER
By DR. SAMUEL G. DIXON, Commissioner of Health, Pennsylvania.

"Water!—of heaven first born, ever in all ages a sacred emblem from that remote period when the earth was without form and void and darkness was upon the face of the deep and the Spirit of God moved upon the face of the waters. Alas! in these latter days more abused than in any other element."
From the settlement of America by the Spanish, the babbling brooks, up to and including the broad water highways of nations, have been used for the disposal of sewage, and this without restraint, until a few years ago when the work began under the law of 1905 to change this condition, which has resulted in reducing typhoid fever 74 per cent, as well as lessening the suffering and sorrow of thousands of human beings.

The time consumed in cleansing the streams is not for the want of sufficient legislation; that is ample. The progress has been impeded by the fact that homes and industries have grown since our first civilization very much as Topsy did, without any thought of the morrow. Having this enormity of insanitary conditions to meet, with so many lives depending upon the products of the offending producers, much financing and time must be used to eliminate the death-dealing condition.

The sewage from individual sources has largely been removed from our streams and our industries have removed their wastes gradually and continually. This, however, has been a work that of necessity moves slowly, for upon the great industrial plants our people depend for some of the necessities of living and hundreds of thousands of our people made their bread and butter for their families by working in the great manufacturing plants of the country. It would not have done to arbitrarily have ordered all these industrial wastes out, as we had a high appreciation of the distress to our people by the closing down of our factories, and therefore waited in many ways for Mother Invention to discover ways and means of disposing of industrial wastes without interfering with the great hubs of industries.

Our people during the last decade have been educated to an understanding that pure water is an essential for good health as proper food. This, however, was recognized in the time of Nero; that great and arbitrary emperor was fined for polluting the Nile. To restore our streams to their virgin conditions will of course be somewhat expensive, yet money cannot be better spent, as the health of both man and beast depends upon improving our domestic water supplies—in fact it is a great factor in increasing the power of our nation, because this depends upon the health of our people.

Around the World.
The people in Holland hold the record as coffee drinkers.
The Australians are the greatest meat eaters in the world.
There are 25,471 miles of railroad in France, in which are over 60,000,000 ties.
The normal daily consumption of milk in Paris and its suburbs exceeds 1,000,000 quarts.
A tug dispatcher is employed in New York to control by telephone the movement of a line of tugs in the harbor.
Tiny electric Mazda lamps fixed in policemen's helmets serve to direct traffic in the darkened streets of London, England.

Spanish Woman Does Not Lose Her Maiden Name at Marriage.

The bride's maiden name is valued in Spain and is not set aside by marriage. When a Spanish woman marries she merely adds her husband's name to her own. But never does she lose her identity by dropping her name entirely and taking over that of her husband. And to her intimates she is known more by her maiden name than her husband's.
More than that, an unmarried person is known by both the mother's and father's name, joined by the letter "y." That makes the formal name. Informally, a son, for instance, is known only by his father's name. Thus a person may be Smith y Brown, or its equivalent, the father being of one surname, and the mother in her maiden days of the other. When that person marries, to avoid complications the mother's name is dropped, and the husband's name tacked on with the aid of the prefix "de." In that way the "senorita" or "senora" is unnecessary to distinguish married from unmarried women.

HIT AND MISS
Some men never use kind words if there is a club handy.
An eccentric woman is one who prefers comfort to style.
It flatters a married man to tell him that he doesn't look it.
When fame comes to the average man it roasts upon his monument.
Never lend money to a stranger. If you must have financial transactions with him, borrow.
"Know thyself" is all right as a proverb, but some men who know themselves do not know much.
If your heart prompts you to do a good deed, do it immediately before you have heart failure.

Willie Willis—Ma, what do they mean by "measured tread?"
Mamma Willis—For example, your father's tread when he came home last night measured about two quarts.
—Life.

Pure Blood is essential to Good Health. Garfield Tea dispels impurities, cleanses the system and eradicates disease.

Native—No doubt in case of war we shall throw in our lot with Britain and France, and the alliance will be of festive.
Hypenite—It will be to me—Indeterminable.

"When do you think the war will end?" asked one inventor.
"There's no saying," replied the other. "We have the submarine; now we're getting the submarine destroyer, and then we'll want the contrivance to destroy the destroyer, and so on until the calculation runs away off into the higher mathematics."—Exchange.

The Toiler.
"Does a farmer have to work hard?"
"Yep. But not so hard as the average person who has to buy what us farmers raise."—Washington Star.
