This is false, as we have no one on the road at the present time, and when we do they will have cards to show their authority, therefore, until such time as any junk buyer calling upon you for your waste wares can show you such a card, we would suggest that you bring your waste direct to our place of business, as we are paying a higher price for most all such materials than these outside buyers. Local Boys to Enlist

To date nine of our local boys have either signed the agreement that they would enlist or have already enlisted in some branch of the military service. Altho the recruiting officers of Medford, representing the 7th Company Coast Artillery, Oregon National Guard, have been working Central Point, the most of our boys chose to join other organizations. The following signed the recruiting officer's agreement that they would enlist, practically all of them choosing the Naval Reserve as the branch they wish to join: Floyd Ross, Jay Hathaway, Paul Norcross, Howard Mayfield, Dan Herring, Vern Magruder, Ben Hilton and Walter Grim. Medran J. Altimus, who has been employed by Uncle Sam, under the local postmaster, Guy Tex, for more than a year, left for Vancouver, Wash., Tuesday evening where he will take the examination for the regular army, as he signed up for the Coast Artillery branch of the regular service. Mr. Altimus proved a very capable and reliable assistant in the local post office. Mr. Tex told the Herald editor, adding that Mr. Altimus was very bright and ambitious and was always studying during spare moments. "It is his aim to serve one year in the army and then to take the examination for an appointment to West Point."

Harrison Leaves For Calif.

L. M. Harrison, our local waste dealer, left Sunday morning for Stockton, Calif., where he will attend to some business matters and visit H. O. King and family, formerly of this city. He will also visit other California cities in the interest of the order of Knights and Ladies of Security, in order to familiarize himself with the workings of the order, for which he is deputy. He is particularly interested in becoming more familiar with the initiatory work.

Mr. Harrison has brought a great deal of money to our community through the sale of waste materials, gathered up about the many homes. Upon his return he expects to be better prepared to cover the territory and get acquainted with the people, thereby, eliminating the likelihood of so much misrepresentation on the part of out-of-town buyers, who represent themselves as being connected with Harrison & Betts.

Mr. Betts will take charge of the business during Mr. Harrison's absence and the highest market prices will be paid in cash for your old waste. It would be well for you to get their price before selling your waste to outside buyers.
