**Farm Work Easy and
Save Money & Labor**

An Electric Motor will work harder and more steadily and give you less trouble than any horse or engine you can buy. We can furnish you, for less than $\frac{1}{3}$ the cost of a good horse, a Motor which will last a life time and give you not one moment's trouble. You won't have to feed it, and it costs nothing at all when it isn't working. It will do the work of six men at less cost for current than the wages of one. It will run day and night and turn out eight times the work of a horse, and it is **More Reliable** than Old Dobbin, too. It doesn't get tired, stop to eat, and never gets sick.

The Men Behind A Bank

The most important thing about a bank is the character and ability of the men behind it: the men who direct its affairs.

The Directors of this bank are well qualified for their duties by reason of their conservative policies, sound judgment, experience, integrity and financial standing.
