The Granfill-Robnett store has a new delivery car. The new car is composed of a new Dodge chassis, built a little heavier than the ordinary Dodge chassis especially for the Cranfill-Robnett store, and a body built by Harry Merriman, who drives the car. The workmanship on this body is certainly fine for a man not professing to be a mechanic. The new car was put into use the early part of this week. The Dodge agents at Medford, from whom the car was purchased, photographed the new car with Mr. Merriman at the wheel. Mr. Robnett said that the car is much stronger and more serviceable than the old one was. The first load hauled weighed something over sixteen hundred pounds.

Mrs. Harry Merriman and son left for Portland Wednesday evening, where the boy will undergo treatment for his neck. They were accompanied by Miss Lee Middlebush.

Betts will buy all your old zinc, copper, lead, brass, etc. Hotel Central, Central Point.

Rev. S. J. Miner, an evangelist whose home is in the State of Kansas, is at present visiting his brother at Willow Springs precinct, and while here is supplying the pulpit of the local Baptist Church of Central Point.

Mrs. M. D. Bowers and daughter Helen, of Gold Hill, were guests in the home of Mrs. Bowers' mother, Mrs. J. T. O'Harro. While here, Miss Helen was taken to Medford, where she underwent an operation, by Dr. J. J. Emmens, for the removal of adenoids.

The far-sighted man is now planting potatoes, beans and other garden stuff. We have a quantity of fancy American Wonder Seed Potatoes and Ky. Wonder Pole Beans, and a complete stock of other fancy garden seeds. The Central Point Mills.

The Woman's Missionary Society of the Presbyterian Church met at the home of Mrs. W. A. Cowley on Wednesday afternoon. The hostesses were Mesdames Cowley, Rostel and Tompkins. Dainty refreshments of ice cream and cake were served and a very enjoyable afternoon was spent.

To-day, while the O. A. C. representatives were standing in front of the Savoy, Sam Murray, a well known citizen of our town, came along carrying a bucket full of genuine, old-fashioned corn meal which he had ground himself. The O. A. C. representatives were eager to see it, and Mr. Murray explained that he had raised the corn himself and had ground it in his own gasoline quartz mill, which he had converted into a mill for this purpose. This is a novel but certainly a most practical means of preparedness.
