

GOOD ROAD POINTERS

Good roads will make Oregon the greatest dairying center in the world. Remember this when you vote on the road bond bill in June.

The proposed bond issue will provide good roads at no greater cost than the state is now paying for poor ones.

The action of the recent Legislature in doubling the annual license on automobiles and making the funds derived therefrom available for road construction is justified by the reasoning that it is the automobile that destroys the road and it should bear the burden of road construction.

"When public money is honestly spent on a road every dollar becomes three dollars," says the Portland Journal. "First, there is the dollar in the road itself. Second, there remains in the community the dollar which has been paid out for labor and material. Third, there is the dollar of economic value added to the land adjacent to the road. This is a real value, not a speculative one. It is an increase in productive capacity."

Better reasons for supporting the road bond bill June 4th could not be offered. It may be depended upon that Highway Commissioners Benson, Thompson and Adams will see to it that every dollar of the road fund is honestly expended and full value returned in roads honestly constructed.

The personnel of the Highway Commission, appointed by Governor Withycombe, is in itself a guarantee that the money derived from the proposed \$6,000,000 good roads bond issue will be wisely and economically expended. It is a further guarantee that every cent of the money will be spent in practical road construction. There will be neither waste nor extravagance in the expenditure of the fund.

In voting the good roads bonds June 4th, the voters of the state are taking absolutely no chances. The bill authorizing the bonds specifically describes the roads to be improved and defines the general character of their construction. Bids will be invited and, if the proposals are excessive, the Highway Commissioners have announced that they will do their own paving. What more could be asked?

None of the money to be expended for good roads under the bonding act will be expended in Multnomah County although that county pays 40 per cent of the automobile licenses of the state and a proportionate share of the regular quarter mill road tax.

GOOD ROADS RALLY TO BE HELD APRIL 28

Reduced excursion rates from all sections of the state have been granted by the railroads for the Statewide Good Roads Rally to be held in Portland, Saturday, April 28. Don't forget the date and arrange to attend. Every friend of the road bond bill and good roads enthusiast is invited to be present.

Governor Withycombe and Highway Commissioners Benson, Thompson and Adams will deliver the principal addresses and short five-minute talks are proposed by the Mayors of various Oregon cities. From present indications, the rally will prove the most notable gathering of good roads boosters ever held in the Pacific Northwest.

Earl Obenchain Passed Thru Friday Morning

Instead of coming thru on the regular morning train, Earl Obenchain, who enlisted in the regular army from Central Point, passed thru here on Friday morning on a special train bearing 175 soldiers to Fort Sam Houston, Texas. The train passed thru ahead of No. 13, so no one was at the depot to greet him. However, his cousins, Miss Pearl and Miss Esther Pankey, happened to see Earl waving from the platform of the train. They phoned to the depot to be sure that they were not mistaken. They next phoned to Clarence Lovern and engaged him to hurry them to Ashland in his auto, as that was their only chance of seeing Earl. In spite of a blow-out, however, they arrived in Ashland in time to spend ten minutes with Earl. They also presented him with a basket of good things to eat which the business men, friends, and relatives had prepared for him. Earl was delighted with this manifestation of good will and friendship of his many friends and relatives at home.

Earl is on his way to join the Aviation Corps.

Local Bank Will Sell Bonds
