

With a cigarette
as good as Camels
the simple truth
is enough

CAMEL

CIGARETTES

WHY CAMELS
ARE THE BETTER CIGARETTE

Camels are made of the choicest tobaccos grown—cured and blended with expert care.
Camels are mild and mellow.
The taste of Camels is smooth and satisfying.
Camels are cool and refreshing.
The fragrance of Camels is always pleasant, indoors or out.
They do not tire the taste nor leave any cigaretty after-taste.

THE JOKERS CORNER

Ten years ago neighbors used to drop in for a call. Now they call in for a drop.

I think there is company down stairs.
"I just heard mama laugh at one of papa's jokes."

"Lo Sam. Ah thought you was sending us a chicken fo' Sunday dinner."
"So Ah was, Gawdge, but it got bettah."

YEA BO!

The night was clear and frosty. The two tramps ast in a manger. Suddenly a gust of wind blew open the door.
"Old pard," remarked one of them "those flakes is beginning to fall."
There was a deadly silence. Then the other tramp spoke.
"Gawd!" he murmured, "how I wisht they was corn flakes."

JOHN'S OUT OF PRACTICE

Wife—Dear, when we went thru that last tunnel a strange man kissed me.
He—What! Show him to me and I'll teach him a few things.
Wife—But you couldn't, John, he knows everything.

OPPORTUNE ILLNESS

MacGregor and MacPherson decided to become teetotalers, but MacGregor thought it would be best if they had one bottle of whiskey to put in the cupboard in case of illness. About three days later MacPherson could hear it no longer, and he said, "MacGregor, I feel sick." "Too late," said MacGregor, "I was vera sick all day yesterday."

LOCATED PA

A woman who runs around considerably herself made an experiment the other day to satisfy her curiosity of long standing. "I am satisfied of one thing at last," she was telling one of her friends. "I found where my husband spends his evenings." "You don't say so, dear; how did you find out?" questioned her companion excitedly. "I stayed at home one evening last week and found him there," she explained.

Composition of Tinfoil

Tinfoil is thin sheets of tin, the metallic element. It is beaten thin with a wooden mallet. Leadfoil is made of lead. Both are used for wrapping purposes, but tinfoil is the more common. "Foil" in such compounds literally means leaf.

CENTRAL POINT STAR

Office With Al Hermanson

YOUR NEWSPAPER

Your newspaper is as important to the community as any other intitution. The life of your newspaper depends on the support that it is given by the people of the vicinity. Its chief form of revenue is from the advertisements which appear in its columns and without them there could be no newspaper long.

Everyone who reads the newspapers answers some of the ads or at least are influenced in their buying by the store news which it contains. Now if each reader would mention to their merchant that they saw their ad

NEW...

\$15 to

San Francisco

New low fares to California—\$15 to San Francisco, \$28 to Los Angeles. These tickets are good on day coaches of either the "Shasta" or "Oregonian." They may also be used on Tourist sleeping cars of the "Oregonian."

This type of travel has proved so popular between Portland and California that the privilege has been extended to include other points. It combines comfort with low cost transportation.

in the home paper it would not be long before the newspaper would flourish and a bigger and better newspaper would be the result. It requires no effort to lend a helping word in favor of the home newspaper and in so doing each reader would benefit for they would be given more and better news, both local news and store news.

Practically every man or woman who is in business wants to advertise and would advertise if he or she knew that their ads would be read. See how it works out? If one hears a progra mover the radio, they mention it. Why couldn't the same courtesy be shown the newspaper as is shown the radio station? One is as important as the other.

Any mention made to an advertiser causes much good will. The advertiser wants to know that his message is read. The newspaper is benefitted thru the receipt of more advertising and the reader is benefitted by the growth in size and scope of his newspaper.

Rastus came home unexpectedly one day and found Eliza, his wife, with her hair all mussed.

Rastus didn't say anything, although he noticed a strange looking collar lying on the table. He went out to the bathroom and Eliza heard him loudly stropping his razor.

"Say, ehile," yelled Eliza, "what you all doin' out there?"
"If that collar fits me I'se goin' to shave."

"Sey Gawdge, wot kinda cigars do you-ah smoke?"
"Me? Why, brother, I smokes Robinson Crusoes."

"Wot kinda cigars am Robinson Crusoes?"

"Castaways, dumb-bell castaways."

"Bring me the winner!"

THE story is told of a man dining in a restaurant, who was served a lobster with only one claw. Upon complaining he was told by the waiter that this happened occasionally because the live lobsters fought among themselves in the kitchen. "Bring me the winner!" said the diner.

At the General Motors Proving Ground, a fleet of specimen cars, built long in advance of factory production, fight a battle of hills, bumps, and every other sort of torture. These cars are torn down and rebuilt until they are able to beat every test. The tests involve speed, power, endurance, braking, riding comfort, handling ease; fuel, oil, and tire economy; body strength—every phase of car construction and performance.

Only the winner of all these tests is sent back to the factory to be used as a model for the construction of the car you buy. No matter what driving condition you face, your General Motors car is equal to it. You have the winner.

Drawing from photograph of an endurance test on General Motors' mile test track, the largest in the world.

"A car for every purse and purpose"
