COPCO ANNOUNCES ANOTHER RATE REDUCTION

It has just been announced by P. O. Crawford, Vice-president and general manager of The California Oregon Power Company, that another reduction in electric rates in Southern Oregon will become effective as of May 15, 1929.

This latest rate revision will benefit users of small motors under the power rate. Large users under the commercial and heating rate will also obtain service at a lower cost than heretofore.

The above class of customers did not benefit by the reduction on October 1st, which was confined to domestic and commercial lighting customers. Under the new power schedule the first block has been reduced from 8c to 6c per kilowatt hour and in the case of the heating and cooking rate large users will be charged for a certain number of hours at 1c instead of 1½c as formerly.

Judging from the number of customers affected and their average use at the present time, it is estimated that they will save, under the new rates, about \$12,200 a year.

These new rates have been approved by the Public Service Commission of Oregon and will become

effective May 15, 1929.

HOME POINTERS

A small piece of apple cooked with cabbage, onions, cauliflower, or other strong smelling vegetables lessens the odor of the cooking.

White spots on furniture may be removed by rubbing them rather

ADMINISTRATOR'S FINAL NOTICE

In the matter of the estate of Frank M. Parker, deceased.

Notice is hereby given that the undersigned administrator has filed in the County Court of Oregon for Jackson County, his duly verified final account of said estate and said court has fixed Saturday the 8th day of June, 1929 at 10:00 o'clock in the forenoon of said day at the court room of said court in the County Court House in Medford, Oregon, as the time and place for hearing said final account.

All persons interested are hereby notified to make or file their objections with said court to said final account, if any they have, on or before said time.

A. E. KELLOGG
Administrator of the estate of Frank M. Parker, deceased

briskly with a bit of alcohol. The spots are then rubbed with furniture polish.

An inexpensive and convenient frog for the flower bowl may be made from a square of galvanized wire netting with a one-fourth inch mesh. The corners of the square may be turned down to serve as legs and the frog set in the bowl.

Fingernails may be protected when gardening by wetting them and drawing them over a cake of

toilet soap, forcing it under the nails. The soap is easily washed out and protects from stains and irritations from the dirt.

A handy contrivance for any kitchen is a group of rods suspended from the ceiling on a rope running through a pulley, thus allowing it to be raised and lowered. This rack may be used in drying towels or other clothing in rainy weather. The greatest heat is near the ceiling and the clothing is entirely out of the way of the housewife.

Refrigeration Time Is Here

The Crosley Iceball will give you perfect refrigeration at an upkeep cost of only 2c a day.

Operated by either gas or perfection coal oil burner!
