WHY NOT A FEW COMMUNITY DAYS?

The civic beauty of a community might often be improved by the completion of a project or it may be greatly impaired by the lack of such labor. The capital of any taxing body is always limited and the improvement can not be made for lack of funds.

Should the people of the town band themselves together on an appointed day and go to work many deeds might be performed which would greatly enhance our town or add to our convenience or to the convenience of our neighbors and the labor or money would scarcely be noticed.

By following such a course even as often as once a month to make some civic improvement would accomplish much in the general beautifying of the town and at the same time promote a more friendly feeling among

Provide For The Future

What becomes of your money each pay day? If you spend recklessly, you will always be one lap behind the bill collector. Have you thought of the possibilities of hard times, sickness or other needs. An interest account at our bank that can be added to each pay day, soon grows to surprising proportions, and is the finest form of family protection.

the citizens and above all initiate a greater feeling of civic pride among our fellows.

The Community day has been demonstrated here and proven a success in past years and would undoubtedly be a greater success if instituted now. There are a number of things calling for attention now which might be done before wet weather sets in—Let's Go! We would be pleased to hear the views of others on this matter.

PERSONALITY VS. EQUIPMENT

A writer in a popular national magazine in discoursing on school teachers, says that if it were left to him to spend additional money upon either getting more equipment for the school room or getting a teacher with a better personality, he would vote for personality.

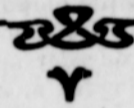

In so far as the school teacher has much to do with the shaping of the character of the pupil, personality means much, for after all it is not the lessons which are learned from the school books which count, but the mind training which is received. Thus it is but natural that the men and women who have before them the training of the child from the time that it leaves the parental knee until it reaches the estate of a man or woman, must have personality. Personality, in this case must include patience, kindness, diplomacy, and a keen sense of human nature. When one looks upon the cares of raising one, two, or more children in one family he has an inkling of what it must require to successfully manage an entire class of boys and girls from many families and from many varied home environments.

When a teacher is employed, often times the matter of a few dollars will overshadow the question of ability. But, a truly successful school teacher is as far above the average as the business manager is ahead of the office boy in an industrial plant. This fact is scarcely, if ever recognized, important as it really is. An instructor who can build up confidence, character, and enthusiasm in a student is far more valuable than one who can merely drill in fractions, punctuation or pronunciation.

These thoughts have often come to us when reading pleas for higher salaries for instructors and in debates as to the worth of a teacher. Practically all teachers are paid like amounts in school, the efficient with the inefficient and upon that point should always hinge the merits of any such controversy for in all branches of endeavor we have the dollar a day man and the ten dollar a day employee and in teaching we can see no distinction from any other business or profession.

We presume that the women folks when they don the new long gowns will feel as though they were wearing a bath robe or an overcoat.

THE JOKERS CORNER

Education Complete

"Did you give our daughter that copy of 'What Every Girl Should Know?'" asked dad.
"Yes," replied mother despondently "and she's writing a letter to the author suggesting a couple of dozen corrections and the addition of two new chapters."

Having heard that O'Reilly was out of work, the kind-hearted old medico who had brought the many little O'Reillys into the world set out for the Irishman's home with a basket of groceries.

At the gate he met young Mike O'Reilly.

"A surprise for your mother, Mike," announced the medico.

"No chance, doc," snorted the boy "you can't surprise her any more!"

Sold Out

Ikey stole out to get a bucket of salt water the first night of his arrival at Atlantic City—having been advised by his physician to take salt baths.

A "con" man stepped up and said, "Fifty cents, please!"

Ikey paid. He stole out in the early morning to escape the assessment, and found the tide had gone out.

"Suffering Isaac, vat a pizness!" he cried.

The patient was very nervous. "Will the anesthetic make me sick?" he asked.

"No," replied the pretty nurse, "I think not."

"How long will it be before I know anything?"

"Aren't you expecting too much of an anesthetic?"

GOOD SHORT STORIES WRIT-

TEN 600 YEARS AGO AS NOW
Although there were no fiction magazines in the days when they were written, the two most famous short-story collections in the world are both more than 600 years old—the "Arabian Nights" and the "Decameron." Dozens of these stories can still compete with modern ones for sheer speed of action, for plot, and for knowledge of human nature.

BUILDING MATERIALS

Ours is a modern supply depot for the builder for we handle Lumber, Shingles, Lath, Lime, Plaster, Cement, Johns-Manville Roofings, etc., and make everything in Cabinet Work and Mill Work.

Early Royal Signature

Who was the first British king to sign his name as distinguished from the mere marks formerly used?—The earliest record is a letter signed by King Richard II, granting to a princess near Bristol a tun of red wine every Christmas!

She Doesn't Mean It

Even though a mother should come to you and express the firm conviction that her offspring are a nuisance, don't agree with her, warns an article in Liberty. Swear that you believe her little ones are angels. If you would keep her friendship.

Book Lovers Do

I have somewhere seen it observed, that we should make the same use of a book that the bee does of a flower; she steals sweets from it, but does not injure it.—Colton.

How She Took It

Blobbs—"I took a chance and kissed her in the dark." Slobbs—"How did she take it? What did she say?" Blobbs—"She said she never wanted to see my face again."

Many Advantages Found In Cooperatives

The Cooperative Idea is industrially a sound one. WHY? Because it eliminates waste. Through a membership in a Cooperative you are automatically eliminating your selling costs. Instead of each producer going out and seeking his or her own market the Cooperative finds the market for the entire membership. Thus a better price can be obtained for everyone and at very much less cost and energy.

It also eliminates much of the purchasing cost. The Cooperative buys for its entire membership. In thus doing it saves by buying bulk lots and disbursing it to their membership at a short profit.

The advantages of the Cooperative are many fold. The more thought that is given the subject the greater are its possibilities.

Think over these remarks and then become a member or come in and talk the matter over with the manager or any of the members. Do not deprive yourself any longer of the advantages which you may just as well enjoy.

The Cooperative Way is the Best Way

Farmers' Exchange Cooperative

Owned and Operated by Clay D. Parker,
Farmers Manager

Best results are obtained by baking meringues in a slow oven for about 20 minutes. Quick baking causes meringues to be tough and leathery, as egg white coagulates at a very low temperature and toughens at a high temperature.
