Faber Getting Along Nicely

Donald Faber who had the misfortune to have his leg broken last week while playing football at Albany is getting along very satisfactorily at the Salem general hospital. E. C. Faber, father of Don, returned from Salem, Wednesday morning where he visited his son and also conferred with the attending physicians. Donald was playing half back on the Willamette University team against Albany College when he intercepted a pass on Willamettes 40 yard line and ran 50 yards with the ball for a touchdown when three Albany players tackled him. It was in this mix up that Faber received the broken ankle. He was taken to the Albany hospital where his leg was set temporarily. He was then taken to Salem in an ambulance where ex-ray pictures were taken of the fracture and the broken bone set.

Faber expects to be out on crutches in about a week but it will be necessary for him to wear a cast on his entire leg for about 6 weeks. This will put Don out of all athletics for this year where he had a good chance of being a star.

Mr. Faber talked with Dr. Doney the university physician and the faculty who all expressed their regret that the accident had occurred and they promised to make things as pleasant as possible for Don while he is crippled. Sunday so many of the students visited him at the hospital that it was necessary for the hospital attendants to refuse any further callers.

Grange Meeting

(BY E. H. STROHMEIER)

The Central Point Grange met Friday, November 15th. Master John Anderson being at Seattle to attend the National Grange, the chair was occupied by Arden Tyrell.

Two young boys (twins) were given the first and second degrees, followed by lecturer Sparrow's program as follows:

Reading, "Bachelor's Prayer", and encore, Mrs. Della Whetstone.

Solo, "Sunset Land" and encore, "My Inspiration Is You", Mrs. Arnold Bohnert.

Talk by Prof. C. D. Thompson, Medford High School, on the subject of dairying. Prof. Thompson will start a night school early in January so that boys may be better acquainted with that occupation. He also spoke of starting a three days per week school, one and one-half hours in the afternoon which will begin the second week in December.

Mrs. A. T. Lathrop gave her second talk on rural life, and one im-

portant remark she made referred to the price of land as sometimes beyond the productive power.

N. S. Westerfield gave us the history of the egg and told of its beneficial qualities in the diet and thinks we should eat more of them. Of course at present it is hard on the consumers but profitable to the poultryman.

Ted Sims of Jacksonville invited Central Point Grange, with Talent to come to Jacksonville for joint installation. Motion was made and carried for acceptance. Sister Haak of Eagle Point will set the date.

Bounteous refreshments were served.

Generous Astronomer

Astronomer (to his young wife)—"Congratulations, my dear. This is your birthday, and I shall have a great surprise for you tonight." Wife—"What is it?" Astronomer—"At eleven thirty tonight there will be a total eclipse of the moon."—Berlin Dorfbarbier.

Really Fast Work

"Talk about fast work," said an insurance agent, "a man insured by my company fell off the dock the other day and our adjuster was on the spot when they pulled him ashore." "That's nothing," said the other agent. "A man insured by my company fell off the twenty-second floor of our home office building and his claim in full was handed out to him as he went by the messalina."

Famous Chairs

One of the most beautiful chairs in the world is the chair of Dagobert, king of the Franks, who died in the year 638. It is made of cast and chased bronze of very fine workmanship. But St. Peter's chair at Rome is said to be the most ancient and interesting piece of furniture in existence.

Naturally

When a girl engages herself to a poet, it is usually a mark of imprudence. Mary, however, showed she had a level head on her shoulder when she announced her engagement to her employer. "So you're going to marry a poet," he said. "Then I suppose you'll leave me." "Oh, no," Mary protested. "I don't intend to leave. But I'll need more salary."

Good Work Done by Humble

The growing good of the world is partly dependent on unhistoric acts and that things are not so ill with you and me as they might have been is half owing to the number who live faithfully a hidden life and rest in unvisited tombs.—George Eliot.
