Help Unburden Her From Kitchen Duties

Many useless hours are spent in the kitchen—many methods in some homes could never be used in business because they lose money and time. Christmas is the proper time to take stock of the many hours that mother must spend doing things the old way.

Electrical appliances are not only inexpensive to operate but they do as their big duty the elimination of drudgery. In the modern home things are done much more efficiently and in a shorter time than ever before.

Go down to your electrical dealer's and see his display—at a glance you will see many things that are not in your home. You will see appliances that fill any price range you may want.
