The deceased is an old time resident of the valley and has many friends here.

**Ocean's Saltiness Varies**  
The salinity of the Atlantic ocean varies. There are two sections of greatest salinity, one in the north Atlantic and one in the south Atlantic, where it amounts to from 3.70 to 3.75 per cent. From these two areas the salinity decreases to about 3.50 percent toward the equator and the south.

## CENTRAL POINT GRANGE GREET'S STATE MASTER

Central Point Grange met last Friday with a large attendance, with Master Anderson at his post and all were glad to see him out again.

State Master Geo. A. Palmiter was escorted to a seat of honor at the right of the master and was received with hearty applause.

One of his first statements was the credit he gave the Central Point Grange for their large attendance having more members than any other Grange in the county. **Eag's Pointers' are giving us the rub.** These two Granges striving for leadership in members should attract the attention of their respective communities and all eligible non-members should apply for admittance.

A resolution was read on the disarmament movement, and referred to the legislative committee.

Lecture hour was taken in charge by Brother Sparrow, and a disappointment was felt when Brother Christiance was unable to get the Bible school orchestra together. Brother Sparrow said likely some of them looked through the door and got frightened at the crowd, but Brother Christiance said if Rev. Millard had looked in, he might have said here's a chance to save someone. And so the program followed:

Reading, Miss Edith Inman; instrumental, Miss Lola Packford; reading, Jack Smith; song, Janice Hesselgrave and Ruth Haley; reading, Mrs. Della Whetstone; instrumental Mrs. Ethel Freeman; reading Mrs. I. T. Gallighar, Rogue River.

Short talks were given by Prof. Thompson, Master Mittlesteadt, Master Ted Sims, I. T. Gallighar, Master E. R. Nealon, and N. S. West-erfield.

State Master Geo. A. Palmiter gave some statements that were of benefit to all Grangers.

Excavating for the new hall has been completed and other work will soon be in progress.

## CENTRAL POINT L. O. O. F. LODGE OFFICERS INSTALLED

The officers of the Central Point L. O. O. F. lodge were installed Monday evening at which time the Gold Hill degree team in charge of Deputy District Grand Master, H. D. Force of Gold Hill conducted the initiation.

Fred Kelsoe, Harry D. Force, W. W. Hittle, William Ferguson, James Bryan, Paul Thompson and Frank Carter were the visitors from the Gold Hill Lodge.

## Of Ancient Lineage

The Biscayans are a remarkable race of people, dwelling partly in the southwest corner of France, but mostly in the north of Spain, adjacent to the Pyrenees. They are probably descendants of the ancient Iberi, who occupied Spain before the Celts. They preserve their ancient language, former manners and national dances, and make admirable soldiers, especially for guerilla warfare.

## Mountain Vegetation

Lemon and orange trees grow of Mount Etna to a height of 1,500 feet up the mountainside. Above these trees is a zone which rises 1,500 feet. Vines, olives and figs flourish here. From this extends a zone rising to a height of about 4,000 feet, which is a wooded region. Here are oaks, beeches, birches and chestnuts. Above is the bare mountainside.

## Earthworms Full of Eyes

Dr. Walter N. Hess of Johns Hopkins, announces that earthworms have eyes in every section of their bodies. With a small beam of light he found every segment sensitive to it. He was able to identify the skin cells that respond to the light.

## Gland Transplanting

The transplanting of glands into the human system is no new discovery, the first record of such an operation being accredited to John Hunter in 1672, says the Chicago Journal.

## Flying Ability of Birds

The narrower a bird's wing is in comparison to its length, the better is the ability to fly. Also, the shorter the body is in comparison to the length of the outstretched wing the greater is the flying power.

## Carried Ice to India

From 1830 until after the Civil war Yankee clippers carried ice from Boston to India. With the advent of artificial refrigeration the trade died out, says the Dearborn Independent.

## Composition of Tinfoil

Tinfoil is thin sheets of tin, the metallic element. It is beaten thin with a wooden mallet. Leadfoil is made of lead. Both are used for wrapping purposes, but tinfoil is the more common. "Foil" in such compounds literally means leaf.

## PRACTICAL JOKER TURNS IN FIRE ALARM SUNDAY

Sunday night at about 11:10 an alarm of fire was turned in which brought the entire populace out to ascertain where the fire might be. The fire department responded for duty and found there was no duty to perform. Some individual, with a queer sense of humor, had set off the fire siren much to the discomfiture of the citizens and the disgust of the fire department. The joke would no doubt revert back to the perpetrator should the guilty one ever be ascertained. The turning in of false alarms cause much confusion and rankle the temper of all who are aroused by them. It is to be hoped that the person responsible for the Sunday ordeal does not make a habit of turning in alarms, for it may go pretty hard on anyone tampering with the fire siren should he ever be apprehended.

## CHURCH ANNOUNCEMENTS

### FEDERATED CHURCH NOTES

J. M. Johnson, Pastor  
"The Baptism And Temptation of Jesus" is the title of the lesson for this week. It is found in the gospel of Matthew, 3:1-4:11. Please do not miss one of these lessons on the life of our Lord. There is a class for you. School opens promptly at 9:45. The young people will have for their devotional study this Sunday evening the question, How Can Nations Practice the Golden Rule? Matt. 7:12; 20:20-28. All young people are invited.  
The Need And Place Of Reliable Leaders, will be the subject in the morning church service. In the evening service the pastor will preach on the theme: The Church In The Lime-Light: And The Others. All are welcome.

The Universal Week of Prayer is being observed in the church this week. The men of the Brotherhood had charge of the service Monday evening. The ladies under the leadership of Mrs. H. W. Davison, had charge on Tuesday afternoon, and Miss Helen Carlton on Thursday afternoon. Rev. J. M. Johnson was the leader in the Wednesday evening service, and the young people of the Endeavor society held the Thursday evening service.

The pastor and Mrs. Johnson, with some of the men and women of the local church will attend the conference to be held in the Presbyterian church in Medford on Friday afternoon and evening of this week.

The report of the Sunday school secretary on Sunday morning showed that the attendance was above any former year; but the giving had

fallen off slightly. Nearly seven-hundred was the attendance in the Ladies' Bible class for the year or an average of 32 for each of the fifty-two Sundays.

The monthly class meeting of the ladies' class is postponed for one week, due to the observance of the week of prayer. Notice will be given later.

The attention of the ladies is called to the facts that the first and third Thursdays of each month is the time of the meetings of the ladies' Aid. The fourth Thursday is the time of the meeting of the Woman's Missionary Society. All ladies are welcome to these meetings.
