## Rights of Indigents

The Post Office department says that the sealed mail of persons living in a county home is as fully protected from unlawful opening as the mail of any other citizen. The mere fact that the inmates are so unfortunate as to have been compelled to seek shelter in an institution maintained for the indigent gives the superintendent no right to interfere with their letters.

## Wrong Appellation

We call a foolish person a "goose" probably for the same reason we call a smart person "a wise old owl." The owl is, in fact, one of the stupidest of birds, while the goose is in reality one of the smartest. The goose can find its way home across a hundred miles of country and it can be trained to do tricks as easily as any other bird or animal.

## Corn Aid to Civilization

When nomadic peoples first began to grow their food and store it, instead of going out to hunt each day's rations or pick them in the convenient forests, they had to settle down near their fields and devote their spare time to some of the finer arts of life. Thus civilization advanced hand in hand with the cultivation of corn.

## Languid Righteousness

In doing good we are generally cold, and languid, and sluggish; and of all things afraid of being too much in the right. But the works of malice and injustice are quite in another style. They are finished with a bold, masterly hand.—Edmund Burke.

## FEDERATED CHURCH NOTES

J. M. Johnson, Pastor  
Putting first things first, or, "Putting God's Kingdom 'First'" is the title given to this week's study. It is found in Matt. 6, the whole chapter. A class for you and your friends. Come.

The young people are to study, "How May Endeavorers Crusade With Christ?" in their devotional service. All young people are welcome.

The young people are taking charge of the services of the church this week, because it is Christian Endeavor week. They will soon have the entire work of the church in their hands, and on their hearts. Let us help them this week. Mr. Arthur Webster has been asked to speak in the morning service, and the speaker for the evening will be Rev. John Still.

The Pioneer Boys' Club will meet on Saturday evening, in the basement of the church.

We consider that one-hundred and sixty one counted in Bible school last Sunday was very good. We have room for more though. The showing of bibles was splendid. Mr. Webster is winning in his effort here too.

The school will be asked to accept or reject the action of the nominating committee, and the Bible school board in their selection of officers for the coming year, at next Sunday morning session. Better be there to see that you are pleased.

Mrs. H. W. Davison is having a few days visit in San Francisco with a sister whom she has not visited for years. We are all glad she could go, though we miss her. She is to return the first of the week.

The pastor and his wife attended the monthly meeting of the ministerial association, meeting in the Christian church in Ashland, on Monday. While in Ashland they also called at the home of Dr. and Mrs. G. W. Gregg, who they have known for several years.

A splendid congregation attended the church services both morning and evening. This is most encouraging to all workers. The special music was of excellent order, and very much enjoyed.

Bishop Titus Lowe will hold a conference for workers in Grants Pass M. E. Church, on Friday afternoon and evening of this week. The afternoon service will be retreat service for pastors. A dinner at 6:30, with short addresses, and a popular service for all in the evening will complete the day.

## Dwarfed Trees Perfect

Dwarfed trees, 800 varieties of them, were recently exhibited in Tokyo. Some of the trees were only a foot high but as perfect in detail as any monarch of the forest. Some were sold for \$6,000 each. Evergreens are the trees usually dwarfed. They are skillfully fed starvation portions of water and shaped with stocks.
