CENTRAL POINT ON THE SPOT

That certain property in Central Point is in demand is quite evident, judging from the demands that have been made upon our city officers for lots in this city.

Due to our close proximity to Medford where land values are greatly inflated, business houses which need loading and storage quarters along the railroad are in need of more room and want cheaper land upon which to build. Our city is indeed fortunate to be so favorably located for when these outside interests begin locating here it will mean new families, new residences, more taxes and more business for our merchants.

Besides these advantages which are ours we are being looked upon as being centrally enough located to be the hub for a cheese factory operation and much work is being done to bring this new industry to our city.

A little effort and a little cooperation among the several interests of the city and surrounding territory will do much for our town.

* * *

MAKE IT A REAL CLEAN-UP THIS YEAR

Our spring weather is so beautiful and pleasant that cleanup days should be a pastime. The solace and pleasure derived from seeing your property clean and attractive should be incentive enough to not only clean up your own place but encourage your neighbors to do likewise. Nothing pays a town more than clean attractive homes and yards. It pays dividends in health, and happiness and leaves a pleasant picture in the mind of all tourists which pass thru or stop within our gates and sooner or later it means actual wealth along with health and happiness. Due to the long open spring time there should be no excuse for not having the entire town spic and span before Easter Sunday. Let us all cooperate to give our city a bright, new Easter dress.

It seems that congress is on the fence on the prohibition question. They don't know whether to let the dear public die from thirst or repeal the law and let them drink themselves to death.

Polly: What makes you so hoarse
Buck?
Buck: I've been talking through
a screen door and strained my voice.
Wife: Oh darling, I'm so glad
you're home. We heard that some
idiot had fallen off the cliff and I
was sure it was you.

THE JOKERS CORNER

Mrs. Nuwife: "Why, Tom! And this is the first \$5 extra I've asked for. What if it was \$100?"
Hubby: "That's what I'm practicing for now."

"This article," remarked mother, looking up from the paper, says that very few stout people are criminals. I wonder why that is?"
I expect it's because it's so hard for them to stoop to anything low, said father.

You seem a bright boy. I suppose you have a very good place in your class?
Oh yes. I sit right by the stove.

Don't let me hear any bad reports about you.
I'll try not to, dad, but you know these things will leak out.

Irate Master (to negro servant): Rastus, I thought I told you to get a domestic turkey. This one has shot in it.
Rastus: I done got a domestic turkey, sir.
Master: Well how did the shot get in it?
Rastus: I specks they was meant for me, suh.

Honey, if you really do like this ukelele, I'm going to give it to you. An out-and-out gift?
Absolutely; there's no strings to it.

Mrs. Inquisitive: But what would you do if your parachute refused to open while you were falling?
Parachute Jumper (bored): Take it back and exchange it, of course.

Shipwrecked Sailor: Why does that big cannibal look at us so intently?
His Companion (cheerfully) I expect he's the food inspector.

Hard Food Essential

A recent survey among leading dentists disclosed the fact that oral hygienists consider hard food an absolute essential for children. Ordinary diet, they pointed out, consists mostly of soft foods, with the result that the teeth and gums do not get proper exercise, or such essential element as lime. By including hard, crunchy food in one or more meals every day the deficiency can be quickly overcome.

Life of Moose and Deer

Moose and deer live to be about eighteen and twenty years of age. Moose reach their full growth in about seven years.

FARM POINTERS

Horses, more than any other farm animals, are sensitive to abrupt changes in feeding and in exercise. Pollination by agencies such as the honey bee are necessary to set a good crop of many kinds of fruit, says the Oregon Experiment station. It is recommended that the bees be moved into the orchard before the blooming period begins. One colony for each acre of mature trees is necessary to insure full pollination.

There is only one way to be sure potato seed is certified—and that is when a blue tag is sealed to the sack with a lead seal, put there by a representative of Oregon State college.

About 70,000 enumerators started in April 2 on the work of taking the farm census, in conjunction with the population census.

The use of large amounts of roughage feed for hard working horses is not only wasteful but detrimental to the horses, says the Oregon Experiment station.

Feeding experiments carried on by the dairy department at Oregon State college indicate that the feeding value of kale is nearly as great as that of average corn silage, when fed in the usual quantities. The kale is lower in nutrients, but this seems to be offset by its greater succulent, palatability and vitamin content.

Gold Hill Items

Mrs. Lee Cook was a business visitor at Medford, Tuesday.

Mrs. R. L. Kenaston was a visitor at Grants Pass, Friday, on business.

Mr. and Mrs. Riley Comer, former residents of this city but now of Klamath Falls stopped over for a short time in the city enroute to Klamath Falls.

Mr. and Mrs. L. Henness of Camas Valley, Oregon are in the city as the guest of Mr. and Mrs. Meisinger. They were called here by the illness of Mrs. Meisinger, their daughter.

Mrs. Ella Patrick is home again after a visit to Klamath county where she was the guest of friends and relatives. She is confined at her home on account of illness, but is reported as being much improved.

E. J. Robb of Portland, Sales Manager for the Wherrie Tailoring Co. was a visitor in the city, Friday

evening. He is an old time friend of the editors and stopped over enroute to Klamath Falls for a visit.

The monthly baby clinic will be held the third Tuesday in April at the City Hall.

The last clinic was so successful and in order to give each child proper attention reservations can be made of Miss Jacobs at the Delta.

Riley Hammersly left last week end for Seattle from where he will take the boat for Alaska. Mr. Hammersly has been residing in this city with his brother John for the past several months. He expects to go to the Mt. McKinley Mining district.

Two arrests were made Saturday evening at the dance. One of the revelers were fined in the City police court and contributed \$22.50 to the city. The other was arraigned in the justice court and was fined \$55.

Perry Knotts returned Sunday from San Francisco where he had been for some time receiving medical treatment. He is much improved. His son Sherlock returned to this city with him and spent a couple days renewing acquaintances here.

Mrs. Matilda Parker received the sad news, Monday of the death of her step son, Frank Parker at Lexington, Oregon. Mr. Parker was a former resident of this city and built several homes here. Burial was today at Lexington. Hardening of the arteries was given as the cause of his death.

SURPRISE SHOWER

Several of the friends of Mr. and Mrs. Alva Walker gave a surprise party and bath room shower upon the Walkers, Friday evening. The event was in the nature of a house warming, the Walker family having just recently removed to their new residence on Rogue River in the western part of town.

Those participating were Mr. and Mrs. Alva Walker and children, the honored guests, Mr. and Mrs. L. Woodford Mr. and Mrs. Wilmer Bailey, Mr. and Mrs. C. J. Shorb, Mrs. Nina Duzenberry and children, Mrs. Ed Shoemaker and son Edward, Mrs. Lloyd Miller and daughter Phyllis, Mrs. L. L. Smith, Mrs.

Millie Walker and daughter Sybil, and Mrs. Kate Ross.

Games were played and dainty refreshments were served. The Walkers were recipients of many pleasing gifts.

Mrs. John Logan and son returned this week to their home in Bend, Oregon after spending several days as the guest of Mrs. Logan's parents, Mr. and Mrs. Chas. Kell.

The committee of the Gold Hill Health unit met at the Delta, Wednesday afternoon at 2 p. m. to make arrangements for the bi-monthly meeting of the Jackson County Health Association.

It will be held at the home of Mrs. G. R. Chapman, Wednesday, April 23rd at 2 P. M.

A cordial invitation is extended to all and it is desired that each family of the community will send a representative to the meeting.

Don Avery, a former Gold Hill resident is a candidate for the state legislature according to the Monmouth Herald which printed the following item: Don Avery, a young man from Taft, who aspires to the republican nomination as joint representative for Lincoln and Polk counties, was a visitor at the Herald office Wednesday afternoon. While not in the business now, Mr. Avery is familiar with the printing trade, having learned the business under the guidance of Ben Hur Lampman when the latter was publisher of the Gold Hill News. On his visit to Monmouth Mr. Avery was accompanied by Mr. Cranio, president of the First National Bank of Toledo.

End of Litigation

Nolle prosequi means the same as nolle prosequi. It is an entry made on the record, by which the prosecutor or plaintiff declares that he will proceed no further. Nolle prosequi means literally "will not prosecute." It is a voluntary withdrawal by the prosecuting attorney of present proceedings on a particular bill.

Paris Latin Quarter

The Latin quarter of Paris is the section of the city in which the University of Paris is situated. Education in the university was formerly given in Latin, and the students used to go about the town singing their songs in Latin, thus giving rise to the name which persists to the present day.

Your Servants do you use them?

Are you taking advantage of the many electrical servants available? Do you realize the number of ways that electricity can lighten the burden of household duties?

Developments during the last forty years in the electrical industry have revolutionized homes, industries, transportation and communication.

Of the 28 million homes in the United States, almost 20 million now have the advantages of light and power. The facilities of the power companies and the many appliances now on the market enable all of these homes to employ electrical servants at reasonable cost.

These servants do not have to be humored. You do not have to give them "a day off." They work for you with the same efficiency all day, every day. Are you enjoying their service?
