Turning S-L-O-W Sales into Quick Turnovers

In this ad we wish to emphasize one big idea and that is this:

You've got to put forth every effort to keep home folks coming to your stores and buying in your stores.

Advertising in your local home news paper can help accomplish that aim. Not only your own advertising, but the advertising of the manufacturers whose goods you stock as well.

You cannot get the advertising support of these manufacturers merely by wishing for it. You've got to make the manufacturers realize how necessary it is to you, if you are to sell their goods successfully.

And you can make the manufacturers realize it by selling their salesmen, who call on you, on your city—by interesting them in our town as an outlet for their merchandise—by interesting them in your local, home newspaper as the means to more sales of your merchandise.

This is an opportunity, for you merchants that you should make the most of, one that may mean all the difference between slow, infrequent sales and quick, profitable turnover.
