## HOT WEATHER BREAKFAST

Everyone appreciates an attractive looking breakfast table, and nearly everyone occasionally feels utterly tired of the usual breakfast.

The ordinary household's breakfast dishes must not take many minutes preparation in the morning or even ask for much effort the day before. But often we can have delicious things for breakfast with very little trouble beforehand.

For one thing there is fruit. Be sure that the fruit you serve is fresh and clean as to skin and cool. Most of the summer fruits are very

little trouble to serve. Whole peaches, plums or pears, halved musk melons and summer berries are all both easy and tempting.
