

Local Happenings

Returns Home

Miss Lucile Abbott who has spent the past month at Klamath Falls visiting her brother, returned to her home in this city Saturday.

Visits Sister

Mr. and Mrs. Morse Haley and children Ruth and Dale of Prospect spent the week end in this city visiting Mrs. Haley's sister, Mrs. Bruce Powell and family.

Returns from Eugene

Prof. H. P. Jewett, who has been attending summer school at the University of Oregon, returned to his home here, Saturday.

Return from Trip

Mrs. Ed Vincent and son Bobbie and Mrs. Blanch Gregory and two children returned Tuesday from a trip to Portland and Salem.

Attend Meeting

Eight ladies from the Christian church attended the meeting of the Woman's Missionary Society of the First Christian church at Medford, Tuesday afternoon. The Central Point ladies were guests of the afternoon.

Visit in Roseburg

Mr. and Mrs. Roy Anderson drove to Roseburg, Sunday and spent the day with Mrs. Anderson's parents.

Spend Day in Grants Pass

Mr. and Mrs. B. F. Peart, Mr. and Mrs. Ed Whiteside, Mr. and Mrs. Will Gregory, Mr. and Mrs. Wood and H. Deitrich all spent Sunday in the park at Grants Pass.

Visit with Relatives

George Stanton of Vermillion,

Kansas arrived in this city, Monday for a few days visit with his aunt and uncle, Mr. and Mrs. J. O. Isaacson.

SHEEP ON SHARES—to reliable parties; from twenty to one hundred ewes. L. A. Salade Jr. Central Point, Oregon.

Baby Clinic Postponed

The baby clinic that was to be held this month has been postponed until September according to word received from Mrs. Lyda King county health nurse.

Visit With Brother

Mr. and Mrs. William Gosney and daughter of Stockton, California visited in Central Point, last week with Mrs. Gosney's brother, Mr. Roy Jones and family. Sunday accompanied by Mr. and Mrs. Oscar Lewis and children of Jacksonville they all drove to the Sulphur Springs on Little Applegate and enjoyed a picnic there.

Move to Medford

Mrs. Belle Davis, her daughter, Mrs. Sam Pogue and sons, Charlie and Jim moved to Medford, last week, to make their home.

Daughter Born

Mr. and Mrs. Don Ross of Medford are the proud parents of a baby girl born in that city, Monday. Both Mr. and Mrs. Ross are former Central Point people. Mrs. Ross will be remembered as Letha Casebeer.

Visiting in City

Mrs. A. W. Jones of Angels Camp California is here visiting her son Edwadr Jones and family.

Ancient Tiger Skeleton Rebuilt at U. of O.

Top photo—Ancestor of saber-tooth tiger such as once roamed forests of eastern Oregon (photo copyright by American Museum of Natural History). Below—Saber-tooth tiger mounted from bones found in asphalt lake near Los Angeles. Sam Itzkowitz of Portland, who accomplished feat, is shown in background.

University of Oregon, Eugene. — "What pretty tusks you have, Grandma" may have made Mother Saber Tooth Tiger swell with pride, but all this time her poor stomach has been shrinking for lack of food, it has been revealed by geologists at the University of Oregon, who now have a complete, mounted specimen of this denizen of the jungle of 500,000 years ago.

The saber tooth tiger roamed the Pacific coast, feared by all, but down through the ages its huge tusks kept on getting longer with each generation, until finally they were so cumbersome that the last of the animals actually starved to death, it has been established.

The specimen recently mounted at the university is the work of Sam Itzkowitz, pre-medics major from Portland, who put together several hundred bones found in the asphalt deposit at Rancho Le Brea, near Los Angeles. They were in a perfect state of preservation, and the entire skeleton,

from the ferocious tusks down to the tip of the tail, has been reconstructed. It is about six feet long and three feet high.

The pool of asphaltum has been the source of many prehistoric animals now extinct. The old-time horse, wolves, camels and many species of birds have been found there. Dr. John F. Bovard, now dean of the school of physical education at the university here, was a student in California when the pool was discovered in 1902, and he coined the name, "smilodon Californicus," by which this species is known.

Although no true "saber tooth" tigers have been dug up in Oregon an ancestral form once roamed the wilds of eastern Oregon. This tiger had not yet developed the fatal tusks, however.

The specimen mounted here by Itzkowitz is his first work but it is unusually well done, said Dr. Earl Packard, professor of geology.

ALL ABOUT MILK

(Continued)

The souring and curdling of milk are wrongly called nature's danger signal for milk. The danger signal for milk. The dangers milk may carry cannot be seen by the naked eye, or detected by the sense of taste or smell. Frequently, there is so much dirt in milk that the specks can be seen in the bottom of the bottle or glass. Most of this dirt consists of cow dung, dust from the air, bits of straw, dandruff, and the like. Ordinarily, however, the dirt is not apparent to the naked eye. But

At Table Rock

Mrs. Alvin Williams and children spent Thursday and Friday at Table Rock visiting Mr. and Mrs. George Wright.

Shopping in C. P.

Mr. and Mrs. Ralph Pittock and children of Humburg were in Central Point Saturday trading and visiting friends.

Visit at Richardson's

Mr. and Mrs. Chas. Cunningham and son of Corvallis were visitors over the week end at the home of Mr. and Mrs. Jesse Richardson.

Visiting in Medford

Miss Grace Hermanson is visiting this week in Medford at the home of her aunt and Uncle, Mr. and Mrs. M. M. Morris.

Daughter Born

Mr. and Mrs. Albert Turrell are the parents of a baby girl, born Wednesday July 30th.

VERY LATESTS BY MARY MARSHALL

After several seasons of the most extravagant sort of flowered design and spraying modernistic figures there is something especially pleasing about the small dot designs that are used for some of the smartest of the new summer silks. Rather small dots, not too closely spaced, on a dark background are especially attractive in combinations of white or ecru on navy blue or black.

For a practical addition to your summer wardrobe we suggest black and white dotted silk made into a dress with short puffed sleeves, long, rather full skirt and a collar with scalloped edges made of white organdie, gorgette or null. Collars of this sort appear on a number of the new summer dresses

you can see for yourself that milk hides the dirt. Milk is opaque, not transparent. Add a teaspoon of earth to a quart of milk; mix it up; the milk will look as white and pure as before the earth was added.

Equally interesting is the regulation dirt test, made by straining milk through clean white cotton or through several layers of white cloth. Try it, and if your milk is dirty, you will observe the brown or black stain showing the presence of dirt.

Dirty milk spoils much more quickly than clean milk, so the dairymen cleans his milk by putting it through a special machine called a clarifier. The cleaning process, however, does not remove germs or bacteria; and, in milk that is warm, the bacteria multiply at a prodigious rate. Every drop of dirty, stale, warm milk teems with bacteria.

The principal diseases caused by milk infected with harmful bacteria are tuberculosis, typhoid fever, diarrheas, scarlet fever, diphtheria, septic sore throat, dysenteries, and summer complaint of children. Fortunately, not every glass of milk threatens us with these dangers, because milk can be freed from such dangers by pasteurization and proper care in handling.

Cold and cleanliness are the best milk preservatives. Any farmer, who is careful, clean and willing to use plenty of ice, can send to market milk that is clean and healthful. But his cows must be healthy and clean; his milkers must be healthy and clean; his pails and cans must be sterilized and the milk must be chilled promptly and kept cold.

Under ordinary conditions milk sours quickly, but clean milk, when kept cold and properly protected, shows very little change in three five or even ten days. It is possible to produce milk so clean that it may be shipped across the ocean and back again and still be in good condition.

Milk readily absorbs every flavor and odor that reaches it. If placed in an open container near tobacco, kerosene, onions, fish or fruit, it will quickly take up enough of the strange odor to make it quite unpalatable. Even feeding the cow with turnips, onions, or any strong tasting food will impart a disagreeable flavor to her milk. Milk should have no odor at all, or at most, only a slight milk odor. A "cowy" odor tells a tale of ill-kept barns, poor dairy methods and the taint of manure.

and are not at all difficult to make. To cut a pattern lay any simple flat collar that fit you on a paper, trace the outline. It should be about five inches deep at back and sides and the front should be extended in two tabs as shown in the little sketch. Draw two-inch scallops round the edges of the collar and front tab. The material may be finished by machine piquet or by a fine rolled hem.

To finish the collar at the front buy a small pearl buckle ornament and draw the ends through this so that they may be held securely in position at the front of the collar.

Of Ancient Lineage

The Eiseayans are a remarkable race of people, dwelling partly in the southwest corner of France, but mostly in the north of Spain, adjacent to the Pyrenees. They are probably descendants of the ancient Iberi, who occupied Spain before the Celts. They preserve their ancient language, former manners and national dances, and make admirable soldiers, especially for guerilla warfare.

GREASING VERY REASONABLE

SITTING

Dr. Charles M. Sheldon wrote in "His Steps," the book that sold a million copies.

I asked him once to tell me about the greatest sermon he had ever heard.

"I don't know that I can name the greatest sermon," he answered, "but I can tell you about one of the most interesting.

"It was in London. The preacher had won a great following by the unusual character of his mind and the directness of his speech.

"On this particular morning he startled the congregation with a text which most of them did not know was in the Bible.

"In the year that king Uzziah died, I saw also the Lord sitting upon a throne high and lifted up, and his train filled the temple."

"I wondered what in the world anybody could find in that text to hang a sermon on. I did not have long to wait.

"The preacher proceeded in vigorous tones: 'I direct your particular attention to the one word sitting. The great king Uzziah, had just passed away. You would expect that there would be excitement and confusion in heaven. Angels would be rushing around as if, "What is going to happen?" and "What shall we do?"

"Was that the case? Not at all. Behold the utterly unflustered Lord sitting upon a throne, high and

lifted up—I want to preach to you about the eternal patience and tranquility of God."

That story has always stuck in my mind. I like to think of the picture—the little kingdoms of the earth in turmoil, while the Lord sits quietly upon the throne, knowing that time will quiet the turmoil and that the crisis will pass, write down the attributes that make men successful, do not fail to include staying power, evenness. When the others became

I know a man who has grown rich beyond any of his associates, though he is in many respects the least brilliant of the lot. But he had great patience and stick-to-it-excited and pessimistic, and sold their stock he just sat tight. And time and the growth of the country have carried him high.

The long bad time for which you traded a short good time.—Los Angeles Times.

By train

you leave the strain of getting there to someone else

When you go to California by train, you leave the job of "getting there" to someone else.

By train, your vacation need not be limited to just one place. A Southern Pacific vacation ticket invites you to see the full sweep of California's charming playgrounds.

Travel the scenic Shasta Route, through miles of breathless mountain scenery. For only \$10.40 more, you can include the famous tour through the Redwood Empire.

CALIFORNIA VACATION ROUNDTIPS

(Good for 16 days)

SAN FRANCISCO	\$20.50
LOS ANGELES	39.00
DEL MONTE	26.50
SAN DIEGO	46.00
YOSEMITE	33.25
LAKE TAHOE	24.50

A ticket to any one of these destinations includes stopovers and permits side trips to many other places you'll want to visit.
