

BOOST AND THE WORLD BOOSTS WITH YOU, KNOCK AND YOU KNOCK ALONE

I. G. SHAW

The spirit of the Booster is as catching as the mumps or the measles. The sour continuance of the croaker is as repulsive to sanity and decency as the smell of second hand onions in a crowded church pew.

The smile of the optimist, is moral sunlight, which quickens in the mind and heart of "the other fellow." The latent germs of confidence in God, and respect for the humanity of his neighbor; and, the activities of the "peptomist," the man who is too busy enjoying, achieving, accomplishing the worth while, to imbibe the germs of suggestion that dwarf and kill his better self is as refreshing rain to the withering leaf, upon the sensibilities and will of folks who come in contact with him.

The sadest thing in life is to hear a human "knocker". It is as though a man or a woman had burned out the "conrod" of sanity, decency and self respect in the mechanism of life with the disagreeable noise of their mental and moral misfortunes.

I have heard a car hopping along "on three legs" on a level road, where no sign of a "grade" was apparent. I have also heard men and women in the midst of plenty, in an environment which Nature and Nature's God alike had gone the limit to fill with the elements of contentment, peace and helpfulness as they jerked along with some heaven-born faculty fouled by neglect, or put out of "contact" because of the constant splashing of gossip, slander, calamity or "hard times" which persistently met, without opposition will make impossible the normal "explosion" of healthful, purposeful, helpful, constructive and humane incentive.

Many a man and woman is simply "missing" on the road of life, in the way of usefulness, in the channels of real human endeavor; not because of "hard luck" but because of clouded "point of contact". An autoist with a machine in the same condition will clean a spark plug and drive on making the "grade," coming and going.

Some folks, like that "slam" on the Ford, "though they coast through the valleys they are towed up the hills," not because there isn't enough "energy" in their make up to climb the "grades" of life; but because without thinking, without concern, without regard for the commonest laws that govern human progress they only know how to "turn on the gas;" care for the divine machinery of the mind, regard for the splendid mechanism of the human body, the power and laws of "suggestion" (which are after all but "traffic signals" on the highway of life.) These are no part of the equipment

or desire or practice of the Pessimist, croaker, down and outer or knocker.

If a license from the Almighty were necessary to life (rather existence among men these poor fortunates couldn't qualify, for there isn't one of them but is a menace to the peace, well-being, progress, prosperity and happiness of our neighbors.

There isn't a valley in the world, more richly blessed with climate, soil, scenery, power, mineral, play ground, and every natural resource that the heart of man could desire than our own Rogue river valley.

If any where on earth the best in human life aught to the universal lot it surely is in this valley!

Let us "tighten up our bearing" clean a few "spark plugs" and keep in mind the fact that there are in but three points of contact with the forces of life.

These are "faith, hope and love, and their greatest of these is LOVE. Don't let them any one of them or all of them get fouled with grease of carbon "dead chip" let us keep them clean, adjusted and "set," then with the driving energies of honest desires and clean ambitions; and with a decent respect for the rights of others let us pay heed to the laws of traffic on the great highway of life, and "travel," rather than just to "jerk along."

Boost and the gang boosts with you, knock and you knock alone.

FOR SALE—14-inch John Deere sulky plow. Plowed only about 15 acres. Nearly new. See M. C. Frazier, mile and half west of Table Rock store. 26-2

FOR RENT—5-room house, wood shed, 4 chicken houses; garage; small garden tract, water pump and

well. 3 miles north-west of Central Point on highway. John A. Anderson Central Point. Rt. 1. Phone 193. 2p

It would be nice if Central Point had a large Commercial club. All working together for the central point of the valley. Many enterprises might be asked for and secured, thus bringing more people. It is possible that a good fruit and vegetable cannery would pay at this point. Think it over.
