### A Natural Deduction.

There was great excitement in the Jones home out on Long Island. A real lord was paying them a visit. He was now sitting at the dinner-table and Mrs. Jones fluttered as she urged My Lord to eat this and that.

Mr. Jones, swollen with a sense of the great honor bestowed upon his household, began each sentence, and ended it in the same way with a worshipful, not to say reverential, air.

As a special privilege—thinking that he might talk about his maturer years—little Willie Jones, aged five, had been permitted to attend the function on condition that he refrain from talking unless spoken to. Mindful of this pledge, the little fellow sat in silence, his large round eyes fixed in a stare upon the face and form of the stranger.

But, when he saw the visitor's eye roaming hither and yon across the laden table as though seeking something, an innate sense of hospitality moved him to speak.

"Mom! Oh, mom!" said Willie.

"What is it, Willie?" asked his mother.

"God wants a pickle."

### Oregon Needs No State Income Tax.

Oregon needs no state income tax, no tax on tangibles, on gross earnings, on excess profits or other new sources of revenue to meet the financial situation, in the opinion of Governor Patterson. All that is necessary, in the governor's belief, is for the ways and means committee to cut deeply, holding down appropriations and to pass an act by which 5 per cent of the receipts of all boards and commissions shall go into the general fund.
