Casad, Davidson, Faber, Jewett and Weber. Refreshments.

MOVIE COLUMN

COMMENTS OF COMING ATTRACTION TO VINING

This Saturday at the Vining theatre will be shown one of the most human stories ever brought to the screen; the story that was written by a woman who had lain for four years in a hospital bed. Nellie Revell, the author, has put sincere characters into the hands of such stars as Pat O'Malley and Marian Nixon to produce "Spangles." "Spangles is a circus picture, proper for old and young to see. Action, thrills, drama, mystery, heart interest and animals as many as you ever saw in the largest circus. Can't tell you more about Spangles, but it will be here Saturday.

For Sunday the 13th, will be shown "Broken Hearts of Hollywood." In this beautiful picture you see the favorites of many in the persons of pretty Patsy Ruth Miller, Louise Dresser, Douglas Fairbanks, Jr., and many others. It is the inside story of the temptations of filmtown, of the primrose path around the picture studios and a story with a moral of the many fed up, fagged out and far from home girls. It is a Warner Bros., picture and an epic of screen productions. Every movie struck boy or girl should see this picture as well as their parents and it tells in impressive terms the true story that only one in a thousand succeed who seek movie fame. A really wonderful picture not soon forgotten.

Monday, Tuesday and Wednesday three days next week, devoted to the nation renowned play and movie, "The Winning of Barbara Worth." It is from the famous Harold Bell Wright story and many term it the best historical play ever shown. It will be neglect to miss it and the theatre should be crowded at each showing. It pictures and faithfully depicts the struggle of a courageous group who fought and suffered that the vast desert wastes might be turned into a fertile kingdom. It is big, romantic, full of thrills and human kindness, as well as hardships overcome. One of the big productions of the times.

Next Thursday and Friday the 17 and 18, is the prince of comedies called "The Potters." The Potters are an average American family who suddenly strike it rich in the oil fields. Pa Potter won against the advice of Ma Potter. From start to finish you will laugh. We have read the advance sheets on this show and can vouch for the fun one will have watching the actions of the Potters. In them you will recognize your next door neighbor.

TO BEAUTIFY NORMAL GROUND

PLANTING OF SHRUBBERY TO BEGIN AT ONCE

Contract Is Awarded

Working Out Promises to Be Most Beautifully Colorful Foundation of Any State Institution.

Yes, this is a great country. More, it is a beautiful country; and yet the loveliness of city home and public institutional environment may be enhanced by the artistry of a certified landscape expert.

Quite notable in the evidences of what a true artist can do with the landscape art understood may soon be seen at the southern Oregon normal school at Ashland when the first unit, costing \$150,000, will be given a becoming evergreen setting by the Woodstock Nursery company, Portland, under the supervision of its sales manager and landscape expert, John L. Schuyleman.

Mr. Schuyleman, when interviewed for his program, said that the location, architecture and color of this beautiful normal school building lent itself readily to the working out of color schemes and mass formation in which he felt himself especially at home.

Large Italian cypress trees, seven foot Cotoneaster tomentosa with great masses of red berries, and superb Pyra Cantha Augustifolia with orange colored berries, evergreen; together with many other types of cypresses and shrubs will be used in working out what promises to be the most beautifully colorful foundation planting of any state building in Oregon.

This important contract was awarded last Friday.

Work of putting the southern Oregon normal grounds in condition and the early planting of the shrubbery as called for in the designs will begin at once.—News.

"Ashland Maid" Creamery Butter

is real butter, made from rich, pasteurized cream, wrapped in sanitary packages. It possesses "Vitamins" in generous quantities, which physicians declare is vitally necessary for growing children.

"Its the Quality"
