### MOVIE COLUMN

#### COMMENTS OF COMING ATTRACTION TO VINING

The theatre beautiful—Vining theatre in Ashland was a popular place for attractions during the past week. All shows were exceptionally good, as predicted by the movie column writer in last week's American. We notice by the advance press bulletins that the best obtainable will be continued on the Vining program.

For this Saturday night, February 19, will be shown "The Unknown Cavalier." This is a western play and a First National Western scenery, the prettiest in the world, predominates all through the showing with plenty of former day cow boys and "round-ups." Many of the sittings mixed with the death-like heat and sand are mingled romance with rough work and hard riding.

On Sunday and Monday, February 20 and 21 is booked one of the best laugh provoking pictures ever filmed. Everybody and his neighbor will want to see "Private Izzy Murphy." More proof of the greatness of the picture is given in some of the noted actors, such as George Jessel, Patsy Ruth Miller and Vera Gordon and Nat Carr—Song and laughter, health giving merriment is this picture. With big battle scenes, tears, thrills and a sure cure for the blues or that tired feeling.

On next Tuesday and Wednesday many are waiting to see "A Man of the Forest," a Zane Grey story you have probably read. It's a great story that never drags nor becomes too deadly serious. The present day vogue in entertainment is for big, healthy, slashing outdoor thrillers, and this production fills the bill to perfection. It promises to be probably the most popular of the week.

Next Thursday and Friday nights, February 24 and 25 ought to hit us all with a feeling of "let's go" Oregonians are supposed to be accustomed to more or less dampness, but in this picture entitled "Let it Rain," will see real wet California rain. Douglas McLean and Shirley Mason are the principles in the cloudburst comedy One who attended a showing of this picture declared it the "funniest I ever saw" and he was still laughing when he told about it. The comedy of a U. S. marine, a pretty telephone girl and lots of rain for all their engagements.

### W. C. T. U. COLUMN

The way to virtue temperance and law abiding citizenship is to fill the mind of the growing youth so full of good things that there will be no room for evil to creep in. In other words "over come evil with good."

The child that is taught to obey its parents in the home, teachers in the school, and is taught to have respect for God and its Elders will seldom break the laws of the land as they grow into maturity.

But a child who is not taught obedience in the home or respect for law in church or school will have no regard for civil law—hence one larger cause for our present crime wave.

It is love for the child that keeps parents from insisting on obedience in the home or just a bit of cowardice in shouldering a disagreeable duty. Children learn by sad experience sometimes, lessons that should have been taught by wise parents. Like the baby that cried for a wasp. The mother told the nursemaid to "give that child what it wanted," and when the child cried harder than ever the mother said, "I thought I told you to give that child what it wanted." Nursemaid replied "He's got it, he's got it!" Likewise when the child has to learn by experience in regard to law and order and temperance the experience so often leaves a string that lasts during a life time.

A decided stand in opposition to attempts to repeal the Volstead act was taken by the executive committee of the California State Federation of Women's clubs, in recent session, according to the Union Signal. The resolution adopted said in part: "We regret any utterance or activity which tends to weaken the immediate enforcement of the Volstead act or jeopardize its future."

**WHAT ONE WOMAN DID**  
A "Higher-Up" Brought to Justice.

Mrs. Self was visiting the Burdicks at their apartment in the Gebert home when she was introduced to Professor Gebert, head of the department of modern language in the state university of Wyoming. Professor Gebert at once launched on a tirade against the Eighteenth amendment in the presence of the wrong person.

Mrs. Self is an unusual woman, which he should have seen before he criticized things "made in America." She has lived in Wyoming for thirty years, has raised a family of thirteen children and is a gold-star mother. Indeed, the Cheyenne Post is named in honor of her son who was killed in France. She is a D. A. R., a member of the W. C. T. U., Daughters of Veterans, Relief Corps and Auxiliary of the American Legion. She is also an ardent republican and made political speeches all over the state for Governor-elect Emerson. She has inherited patriotism, achieved patriotism, and had patriotism thrust upon her. So when Professor Gebert sneered at the prohibition law and called it the great American bluff, her W. C. T. U. principles were challenged and she promptly told him who she was, giving all her affiliations. She supposed that would squelch him. Instead he grew more insolent, saying that he had recently returned from a visit to Germany where he had without question, all the liquor he wanted, and that no American law should stand in his way over here.

Her D. A. R. dander rose at that and she said American laws were made in good faith and must be obeyed. He defied her 'and declared he would make his own booze.

All this time she heard a suspicious "psst" from the lower regions, and occasionally a whiff of vile fermentation assailed her. As she fairly fled from the house she yet paused to glance through a basement window and there saw the process by which a high-brow university professor was violating the law of the land. She hurried to Cheyenne, for she was determined that officers of the law should hear.

The next morning a warrant was obtained. With two federal officers, Mr. Fenwick called at the Gebert home and the warrant was served—which meant of course, the resignation of the German professor. He has now sold his home and will soon go back to Germany, much to the relief of all concerned.—Eleanor M. Corthell in Union Signal.

**MISSIONARY CONVENTION.**  
The Christian and Missionary Alliance will hold a convention in Wimer hall, 3rd and East Main, March 3 to 6. Services each evening and Sunday afternoon and evening. Speakers: Rev. W. W. Newberry, district superintendent, Seattle Washington; Rev. J. C. Baker, superintendent of work among young people. Missionaries: Rev. A. I. Garrison, India; Miss E. M. Beyerlee, West China, and Mr. and Mrs. C. T. Carlson, Ecuador.

"First in war, first in peace, first in the hearts of his countrymen." At the age of sixteen, George Washington became surveyor of the estates of Lord Fairfax, a relative. He joined the army a few months later and under Colonel Fry drove

the French out of Pennsylvania. He was on the staff of General Ed Braddock at the time of his defeat in 1753.

On his marriage, Washington resigned his commission and settled down at Mount Vernon. He was a delegate to the first and second continental Congress. He was chosen by the Colonies to be commander-in-chief of the forces in 1775, when war with Great Britain was declared. He drove the British out of Boston, and was proclaimed a great general. His campaign of Yorktown, resulting in the surrender of Cornwallis, ended the war. He took no salary as commander-in-chief or as president. He presided over the federal convention held at Philadelphia, May 1787, when the constitution of the United States was formed and was naturally elected as first president of the union of the original thirteen states. He was re-elected after the first four years. He absolutely refused to stand for a third term, thus creating a precedent. Washington was a man of great strength of will, and he had a strong personality. He alone of his contemporaries realized the greatness of the nation he was founding.

**PIONEERS HOLD ROUND-UP**  
Secretary States This Is Just a Starter of Regular Monthly Meets.

Closer adherence to the great ideals in the life of Abraham Lincoln was urged Saturday night at the Y. M. C. A. Pioneer round-up by Rev. Pemberton, who spoke on the life of Lincoln. Forty-five Pioneers and their leaders were present at the dinner and round-up which was given by the Central Council of Pioneer clubs of the city. Members of the Pioneer clubs met in Pioneer hall earlier in the day and decorated the hall and set tables for the evenings event which proved to be a success, according to those present.

Following the address on Lincoln, the boys were led in singing by C. V. Howell and D. M. Spencer. This was followed by a short business session after which some games were enjoyed by all.

"This is just the starter of regular monthly round-ups to be held by the Pioneer. Each round-up will center around some day or date of interest and speakers will be brought in to instill higher ideals in the lives of each boy," Secretary Walter stated.
