COMMENTS OF COMING ATTRACTION TO VINING

Beginning tomorrow the Vining is offering a week of exceptional pictures. There are at least two shows on the program that all should see, as they are historical, instructive and entertaining in the extreme. But to begin on Saturday, May 7, the attraction is "Regular Scouts" featuring Fred Thompson. In the picture the aid of many Boy Scouts were used and it is indorsed officially by the Boy Scouts of America. It is a powerful drama and shows what boys can do when organized. All young people will especially want to see it.

For Sunday, May 8, is "New York a mighty picture of the life of the big city featuring such high and noted actors as Ricardo Cortez, Lois Wilson, Estelle Taylor and many others. It portrays a fascinating romance of Manhattan's night life, gayeties and shadows. Around the love story of a poor but ambitious immigrant youth and a millionaire's beautiful daughter, ebbs and flows the whole mad, clashing gripping tide of life of the metropolis. If you have never been in old New York now is your chance to go.

Then next Monday, Tuesday and Wednesday, May 9, 10 and 11, is to be shown one of the biggest productions of the age. It is "Sorrows of Satan," and a D. W. Griffith picture. It is a picture one will not soon forget, a real and true romance and love adventure and at the same time offering one of the best moral lessons ever told. The modern satan immaculate, velvet gloved, irresistible. Satan, who can offer motor cars, beautiful women, undreamed of wealth. Then love, the real devotion of a true lovely girl, companionship and sympathy for mastery. Which wins? Judge after seeing the picture.

On next Thursday and Friday, May 12 and 13 follows another magnificent production, one all children as well as adults should see. It is the much talked of picture entitled "The Lost World." The cast is composed of the best of stars, the scenes are beyond description. It is a trip to prehistoric times. It has been heralded as the biggest show in history. Absolutely astounding is the only way we can describe it.

See mighty Dinosaur in the streets of London, monsters bigger than buildings. The picture is taken from Sir Arthur Conan Doyle's stupendous story of the Lost World and the strangest story of romance and adventure since the world begun

METHODIST CHURCH NOTES

Children coming to the Methodist Sunday school have crowded themselves out of the building. Tents will provide class rooms this summer for several classes.

Opinion is strong in favor of a deaconess for the Methodist church. G. F. Billings, who has always been a friend to the young people, presents the proposition. The official board has taken it up and is making further investigations. A deaconess will be of great advantage with the children and young people.

The old organ has given in at last. Its decorated pipes will no longer adorn the front of the auditorium where a new pipe organ is planned to be placed. The small organ was dismantled and removed last Tuesday.

Permanent opera seats have replaced the chairs for the choir. Those who have seen the change declare their approval.

DID YOU EVER STOP TO THINK

By Edson R. Waite
Shawnee, Oklahoma
United States Senator Harry B. Hawes of Missouri, Says:

THAT we are drifting from the traditions and fundamentals of the forefathers.

We are passing emergency legislation for one purpose, which is breaking down old traditions and old fundamentals and striking at the thoughts of the forefathers in a thousand different directions.

We are having government by groups and blocs and cliques and special interests.

The average man's interests are being neglected.

What we need is an "Old Hickory," and Andrew Jackson to bring us back to simplicity in government and honesty in its administration.

A TRIBUTE TO MOTHER

By Oattie Phelps

I'm thinking of my "Mother" dear,
Her presence seems so near;
I almost feel her loving touch,
Her voice, in memory hear.

It seems but just a little while
Since I knelt beside her chair
And listened to her gentle voice
As she offered up a prayer.

How oft in childhood's twilight hour
To comfort, and to bless,
She sang away my little fears,
And all my weariness.

Those songs sweet recollection bring
Of days that are no more,
And I so long to hear again,
The same strains o'er and o'er.

'Tis thus I think of Mother dear
She was my friend and guide
Tho sometimes grieved by deeds unkind,
With patient smile her wound did hide.

Her sweet face has long since
Vanished,
Comes to me with loving smiles,
As I muse beside the fireside,
Thinking of her all the while.

I've many treasurers laid away
I prize each great or small,
But a little faded flower,
I cherish most of all.

And once again that sacred day,
Of Mother's Day draws near,
I'll wear a white carnation,
In memory of my "Mother" dear.

ASHLAND AMERICAN

What's colder than ice?
Electricity!

If you could always have an ice-box full of ice, it would be almost cold enough.

But you can't. Today's cake of ice starts melting at once—the drip, drip of the spout tells you that the ice-box air is growing warmer.

Run a wire to your refrigerator from the lamp-socket. Install a compact, convenient, practical ice-making unit. (Your present ice-box can be made into an electric refrigerator easily, if you like.)

See how dry, sweet and cold the air is—always. Day or night, the occasional hum of the motor tells you that crisp, frosty refrigeration is being delivered—electric refrigeration that keeps the temperature colder than ice possibly can.

Electric refrigeration is quiet, simple and dependable. It is a proven convenience that will soon be in every modern home. Let your dealer show you how easily you can have it in yours on attractive installment payments—now!
