NUMBER 46

RESULTS ENTHUSE Y. M. C. A. WORKERS

Nearly Eighteen Hundred
Dollars Raised in First
Morning's Work

FORD TAKES LEAD

Team Headed by John
Riggs Turns in Most with
Total of \$430.00

The Fords won the first lap in the Y. M. C. A. budget derby when at the noon day luncheon today it was found that teams representing this side of the contest had reported more funds pledged than the Chevrolet representatives. The total amount raised on the budget was \$1764.00 according to figures compiled by Secretary W. P. Walters, with the team headed by John Riggs taking the lead in the forenoon's standing with a total of \$430.00. G. A. Briscoe's team came in second with a pledge of \$332.00.

Twenty men came in from their arduous labors of the forenoon to attend the luncheon, and with each report there was either praise or ridicule, offered by those who were either on the winning side or were listed among the losers. The workers were highly optimistic about the outcome of the moorings activities, and some are predicting that Wednesday evening should see the budget completely raised. It was pointed out however, by others that this depended entirely upon the activities of the workers, and that a continued concentrated effort was all that was needed to wind the work up in a hurry.

THREE IN ONE FAMILY HONORED

To have three distinct honors conferred upon three members of one family is sufficient to cause a broad smile upon the happy parents of the three children, and that in a way explains the reason Rev. H. F. Pemberton's usual smile is just a bit broader than usual. He has one boy Paul, who is a junior in the University of Oregon Medical school in a recent examination conducted by the National Board of Medical Examiners. Paul was one of the first ten in the examination upon physiology, and was on the first fifteen per cent out of the total of 314 students all over the United States, that took the examination.

Earl is a senior at Willamette, and has just been informed that he was the honor student last year in both Sociology and Economics, and Helen who has just entered this school, has won a place on the glee club.

Reverend and Mrs. Thacher, who are now ministering at the local Nazarene Church, plan to start to Japan next May to take up their missionary work again. The Thachers formerly spent three years in missionary work in Japan.

Mrs. Myrtle Wells and daughters of the Boulevard were happily surprised last week to receive an express package containing a deer from their relatives in Douglas County. The Douglas county deer are somewhat smaller than those of Jackson county but they are exceedingly fine of flavor.

NEW FORD TO BE NAMED LINFORD

Texas Newspaper Man Conducts
an Investigation as to
New Car

have been repeatedly asked for information concerning the new Ford, and we are pleased to give our readers the full benefit of the information we have gleaned from first one source and another. Here it is:

The new Ford product will be known as the Linford, taking its name from Abraham Lincoln, its founder, and Henry Ford, its manufacturer. Some other name may be substituted.

The car will be equipped with a running gear, engine body, gasoline tank, radiator, and other accessories usual to other automobiles.

The wheels, of which there will be four, will be set on axles and will turn around and around, forward or backward, depending on the choice and skill of the driver.

On the extreme front end, the car will be equipped with a radiator, which will serve as a reservoir for water with which to water the road. The front of radiator will be meshed so as to be an excellent smasher of bugs, insects, other peoples' chickens and the like.

Situated somewhere on the car will be a gasoline tank which will contain a certain number of gallons of gasoline, or any liquid sold as gasoline by filling stations. A lesser number of gallons can be used if desired.

Seats Equipped With Cushions.
All seats will be equipped with cushions of more or less softness. On the touring and sedan model the rear seat will be placed directly behind the front seat. Both seats will be protected from sun, rain, etc., by a top.

In front of the front seat and behind the radiator will be placed a windshield which will serve as a barometer. When it is raining the windshield will become smeared with mud, water, etc., from passing vehicles.

The car will be guided by a steering wheel which will turn the car to the right or left, but never both ways at the same time.

Entrance to the car may be gained through doors cut somewhere in the body, or if desired by climbing over.

The sedan and coupe model will be closed cars, and the touring cars and roadsters will be open cars.

The engine of the car will be usual in design and equipped with gears, rings, pistons, cylinders, spark plugs, wires and other doodads.

The car will be equipped with pneumatic tires, which will be placed over the wheels, tending to give the car a soft, airy, easy-riding feeling.

Local Woman Has a Most Interesting Mirror

Among the lovely furnishings in Miss Hargrove's Millinery Shop, is a massive and impressive old mirror which reflects from out its crystal depths the very essence of romance and adventure. This beautiful piece of furniture has a fascinating history. It is thought to be a century old. It was brought over to the states from France by a young couple on their honeymoon abroad. During middle age this couple came to Ashland to receive the benefit of our excellent climate and mineral springs, but the spirit of unrest seized them; they felt the call of the coral strands of Honolulu. Because of the tender associations attached to the mirror, it was transported

also and when they returned to Ashland a number of years later, they brought the mirror with them. After a few years in our city, again the spirit of unrest invaded their nomad souls and they must away once more to seek adventure. Alas! the mirror so dear to their hearts had because of their restlessness become a burden to them, at last they decided to part with it. At this time 30 years ago, Miss Hargrove was employed on her first business venture, she saw this wonderful mirror, fell in love with it and secured it at a sacrifice from its owners, and it has found rest and happiness in her shop ever since.

MILES OF TRAVEL PICTURE FOUND

"Evening Clothes" to be Shown at
Vining Theatre Thursday and
Friday

The birth of an heir in a distinguished family, necessitated about 1000 miles of extra travel for the Adolphe Menjou company making "Evening Clothes," his latest Paramount starring vehicle coming to the Vining Theatre Thursday and Friday.

The heir in this case happened to be a thoroughbred colt, and the production schedule of the company was built around the arrival of the youngster because the script required a "new born foal," and any colt over three days old would not do.

So, just as soon as word was flashed from the fashionable Burlingame (Calif.) stables where the colt's mama was domiciled, that the heir had arrived, the company left for San Francisco.

MANY REGISTERED FOR BIBLE CLASS

While complete registration figures for the Bible school are not available at this time, Mrs. Grace E. Andrews, instructor of Bible school, indicates that the registration is fully up to last year's registration, and that indications point to a better percentage than last year. In the Bible school, which started Monday, October 12th, there are now four classes with a 100 per cent attendance, and all other classes show a good percentage. Attendance at the Bible school is entirely optional with the parents and pupils, and the classes take one hour each week from the regular school work, both by pupils and their parents, and under the able supervision of Mrs. Andrews, the grade pupils from first to sixth grades inclusive, have the advantage of this work, which includes Bible stories, pageantry, dramatics, and other interesting features of the course. The work is under the general supervision of the school board and the church board.

The window in McNair's Rexall store fairly shrieks of Hallow'een. High up in the star-trewn heavens, perched comfortably on a corner of a huge orange moon, the Hallow'een Owl wisely contemplated the weird scene below: A profusion of tall cornstalks, a funny scarecrow, black cats, pumpkins, skeletons and whistles, with a riotous scattering of autumn leaves over all, lending to the whole, the very spirit of Hallow'een.

Divine providence played its part in the life of G. F. Billings Saturday afternoon, when it just happened that he was out of his office when a tire on a Medford Klamath Falls freight truck blew out, the rim shattering the plate glass window of the Billings Insurance office window. If Mr. Billings had been sitting in his customary place it would have been impossible for him to escape death. Homer Billings immediately hung out a sign advising the public that the window was insured, and business continued as usual in this office, except for Mr. Billings senior who took sufficient time off to thank E. D. Briggs, for a delightful conversation that had taken place in Mr. Briggs law office, and by which Mr. Billings was detained long enough to miss being in the path of the missile.

Character consists of a respect for the rights of others and Perfect Self Mastery, Coach McNeil of the Normal school told members of the Y. M. C. A. Budget drive committee at the annual Kick off banquet held last night in the Presbyterian church. Mr. McNeil further brought out the fact that the work of the Y. M. C. A. was building citizenship and emphatically declared that the Citizenship of tomorrow depended upon the boys of today. His talk was preceded by community singing under the leadership of V. D. Miller and Lou Hanson accompanied on the piano by Billy Briggs delightfully entertained the workers with a solo.
