The New Ford

(Continued From Page 1)
Dealers have not yet been advised as to the prices at which the new Ford line will sell, but definite assurance has come from Detroit that the prices will be entirely in accord with the policy of the Ford Motor Company to provide the best possible automobile at the lowest possible price.

Elaborate arrangements are being made for the public reception here. City officials and prominent business men of Ashland and vicinity have been invited and preparations have been made to give every caller at the show a thorough understanding of this car, which is expected to make a new chapter in automobile history.

Four-wheel brakes, standard selective gear transmission, extraordinary acceleration, a speed of sixty miles an hour and more, a practically vibrationless engine, and unusual beauty in line and color are among the outstanding features of the new Ford cars, the first of which will be shown in many parts of the country next Friday. The generator, oiling system, steering gear and rear axle are of new Ford design, it is announced. And its 40-horse-power engine has been so designed that it runs 20 to 30 miles on a gallon of gasoline.

This car, which is to succeed the famous Model T line, will be shown on Friday by Ford dealers in many of the larger cities of the country. In Ashland photographs and descriptive charts of the new cars will be on display at The Claycomb Motor Company show-rooms, where the public will be given the complete story of the new Ford car. Later various models of the new Ford line will be on display here.

Churchill is Host

(Continued from page 1)
The second outburst of genius came in the form of another song by a trio composed of Robert Redwine, Charles Prouse and Kenneth Hobson, the composer. It was another school song which as yet is unnamed. Gene Shields was elected honorary captain of the past season and responded with a short speech.

The dinner ended with a few closing remarks by President Churchill in which he stated that he wished everyone could return next year; that he felt certain of the growth of the Southern Oregon Normal; that the school was exceedingly fortunate in having a faculty that endorsed athletics, and that he felt proud of the success attained in athletics this year. The Alma Mater song was the closing act on the events of the evening.
