HAPPINESS ON THE AIR TONIGHT

Is your radio standing in the corner—silent, dusty, unused—carrying memories to all the family of weird, disturbing noises—or, is it a musical instrument, a companion for all the family, to which you point with pride.

This year's radio will prove a revelation to those whose sets are four or five years old. All extraneous noises practically eliminated. Tone quality of such purity it must be heard to be believed. Naturalness of tone that thrills and beauty that inspires.

Half the money paid before will get a radio today that is a good one. Why not trade in your old set? It will prove the best investment in entertainment and companionship for the entire family you have ever made.

We do not sell radios, but your local radio dealer will be proud to show you the latest instruments. A new radio for Christmas would prove a revelation to the entire family. Ask your dealer about radios today.
