Mr. John Bremmer and Miss Dewey spent the Easter Sunday on the coast visiting relatives, returning home Monday evening.

Emil Olsen left for Marshfield Wednesday morning where he has work.

The Overbeck's moved into the Thorson house this week.

Mr. and Mrs. H. A. DeBuque have been remodeling their home. They removed a partition and a big closet between two bedrooms, making one lovely big bedroom. They have also built French doors from the living room into the main hall. They have made various other improvements and certainly have a lovely country home and grounds.

Born to Mr. and Mrs. P. K. Jones of Route 4, a baby girl weighing 8 pounds 6 1/2 ounces, at the Sacred Heart Hospital Saturday morning.

Born to Mr. and Mrs. C. E. Humphrey of Eagle Point a baby girl weighing six pounds, Saturday at the Community Hospital.

Mr. and Mrs. Territt enjoyed a dinner in honor of Mrs. Territt's birthday with their son, D. R. Territt and family of Medford, Sunday.

Sid Bristow caught a beautiful big salmon Monday at Gold Ray. Sunday he fished all day—his pole being broken three times and the third time the big fish took the whole thing. So Monday Mr. Bristow returned with blood in his eye and came home with the prize—a nice big 15lb. salmon.

Mrs. Wilcox returned to her home in Alsea after a three months visit with her mother, Mrs. Mary Grim. Mrs. Grim received a letter from her saying she had arrived safely at home.

Mr. Claire Rodenberger and Walter Crank left for their homes in San Francisco Friday evening. They had been visiting relatives and friends in Grants Pass and Mr. Rodenberger's Uncle and Aunt, Mr. and Mrs. Edward Farra here. The boys are planning on returning in June.

Young Married Peoples Class Meets

The Young Married People's class of the Federated church held a social meeting at the home of Rev. and Mrs. Lewis Tuesday evening. During the evening elections of officers was held.

Those present were: Mr. and Mrs. John Clark, Mr. and Mrs. Lloyd Rot, Misses Alice Case, Hazel Oliver, Chambers, Mr. Harvey Platz, Mrs. Roe and our host and hostess Rev. and Mrs. Lewis.

Every young married couple is invited to attend our class and our social evenings. Our next party will be at the home of Mr. and Mrs. John Clark May 16.

Refreshments were served and everyone had an enjoyable evening.

Referendum to Precede Contracts

A national referendum on May 25 among wheat growers will precede offering of new wheat acreage con-

tract contracts, Oregon State college officials have been notified from Washington. A regional conference of extension men to arrange for the vote in the northwest states has been called to meet in Walla Walla Saturday, April 20, with Dean Wm. A. Schoenfeld of OSC designated as chairman.

First announcement of proposed provisions of the new wheat contracts came in the call for the referendum. As present contracts expire with this crop year, it is proposed that the new agreements start with 1936 and continue four years through 1939.

In all fundamental features the new program follows the old which has been generally acclaimed as among the most satisfactory of the adjustment efforts. It holds our additional inducements to shift land from wheat to grass in drouth and dust storm areas, and permits minor adjustments on individual farms to improve rotation of other proved farm practices.

As in the past, the amount of adjustment with rate and condition of benefit payments would be determined from year to year, but extent of required curtailment is limited

to 25 per cent of base acreage.

Base periods are continued the same as at present in the new contracts, and local administration is continued through the county control associations. The agreement would continue to be entirely voluntary.

The plan for referendum on the continuance of the program is in line with the policy adopted by the AAA in not promoting any plan that is not urged by a substantial majority of any industry. The same plan was followed in advance of launching the 1935 corn-hog program.

The objective sought in the new wheat control program is to keep wheat production in line with consumption needs plus probable export demand and the safety carry-over needed to guard against emergency conditions.
