BE-

By an Innocent Bystander

In another column on this page will be found one of the most inter esting things we have ever printed in this paper. It is the report of the City Recorder giving an inventory of all the property of the city. Be lieving that the people of the city are entitled to know what their money is spent for, Recorder Tex and Water Superintendent Cummings and Marshal Hedgpeth spent a lot of time in the preparation of the documen. Guy may be small but he sure can turn out a man-sized job.

We hope that every citizen of the town will read this report. It shows that tthe city is in very good shape financially. For years it has been the hope of Mayor Leever that some day he would be able to get this town out of debt, and it begins to look as though he would succeed. And while we have had lots of fun poking fun at the city dads we want to say right here that these men are to be honored for the unselfish manner in which they have given of their time and energies for the welfare of the city. They get no salaries or compensation for the weary hours they put in attending to the city's business. but do it all just as a matter of civic pride.

This writer wants it distinctly understood that we are back of our city council heart and soul in their efforts to make this a good town in which to live and own property. We may take a few sly pokes at them just for the fun of the thing, and we hope they don't take thm too much to heart. But we have a high regard for the way all our city officials are working for the good of the city. The record speaks for itself.

And Guy Tex has done some mighty good work in straightening out some of the old indebtedness due the city. He has collected a number ot old accounts which had been hanging on for years and is still working on others. He is sure earning his princely remuneration.

One of the best jobs that the council has done this summer is the cleaning up of the city pump house and the putting in of new concrete about the well. No one need to fear contamination of the city water now. Now if they will just set fire to that darned old shed we have spoken of so often, we will be content.

We had a new one sprung on us this week. We were accused of being an anarchist because we have said that we did not think much of FDR and all his works. Maybe we are, but we are going to go right on saying what we think just as long as the right of a free press is not abridged. We claim that it is our right and Small Minor Items duty to criticize the public acts of public officials. We have nothing to Total New City Hall & say about the private life of Mr. Roosevelt. That is between him and his Maker. But his acts as the chief executive of this country are proper subjects of review and criticism at all times. If that be anarchy-make Tower & Tank West Pump House

Central Point, Ore., September 10, 1935 To The Honorable Mayor and Members of the City Council,

Gentlemen: Believing that it is important that the City Official and the People of the City of Central Point should be informed as to the actual holdings

and assets of the City, the within data has been prepared. With the assistance of Water Superintendent Cummings and Marshal Hedgeth I have carefully checked all property belonging to the City and Flaherty, just back of telephone of and grandmother Mrs. Mollie time with 6 cars on a small track have estimated the value thereof to the best of our ability and belief.

I request that the Finance Committee carefully examine the records herewith compiled and correct any estimates which are found or believed to be incorrect.

With the hope that this report may be of information and service to you, I respectfully submit it for your approval.

AUTO RACES AT **GRANTS PASS ARE** VERY SUCCESSFUL

By M. C. GLEASON

Mel Kenealy wins 4 first places. 1.-Time Trials 29.44.

2.-Roman Helmet Dash-This ace is run at each meet. The driver having his name on the helmet the most times at the end of the year is winner and keeper. This is quite an honor among the drivers. At this have had their names written on

3.-1st heat race. Incidently the total time for 5 laps was 2.27:02 or an average of 29.44 seconds per lap which is .04 sec. faster than Mels time trial. This is very seldom done as its much harder to make record

4.-Main event 15 laps. Kenealy had the pole and held an easy lead over Wilburn, who took second Mrs. Edward Jones accompanied place away from McDowell in the second lap. Wilburn drove a fine race but didn't have enough surplus for slide.

Another driver that did a marvelhad tough luck Friday, 13th by freezing the con shaft in his own Mr. Otto Neidermeier of the West car. In trying to replace the bearing him out for Sundays race. Woody Helmet Dash, but these accidents

happen to the best of cars.

To a good many people the races might have looked a little one-sided at the Theodore Glass home Satur- well known in Southern Oregon died but one incident happened that shows just how easy a race is won or lost. In the 3rd heat race Fred where Saturday was set aside as Anderson had first place won by an easy margin. He had gained a little each lap on the second car. Fred had the south turn to make, down the home stretch and the money was his but what happened? He went at the turn too fast, made a slide and spun around with a dead motor. The other 5 cars drove on past to the fin-Bible School-A J. Milton, Sup-ish line while Fred waited for the tow car car to come and get him his place in that race lost. That is just Y.P.S.C.E.—(two groups), 6:30 one—Woody pulled a slide in the north turn just enough to let Ernsrom pass, but that was just one of Women's Bible Study and prayer those things that happen in every

The track was in fine shape Sunday, as good I believe as is possible to make a ttrack of that kind. Not too much dust and not dangerously slick. With a little more bank on the turns and oil surface that track would be a dandy, would probably have a few new records to its credit.

The drivers as a whole were well pleased with Southern Oregons interest in Auto Racing, and are looking forward ot the time that the Medford track will be opened again for racing. It will be remembered that Ralph DePalma made a new record for 1 1-8 miles dirt track of 47.02 sec. at Medford. This record held until last year when Woody Woodford drove Yakima, Washington 1 1-8 mile dirt in 46.17.

Jackson County with the track already built and the surrounding territory to draw a crowd from certainauto racing as Josephine County does at Grants Pass.

With a little of the right spirit and push behind the proposition we could have auto races at least 4 or 5 times each year.

The pleasure car of today, with all its accessories and tires has been built directly from the success of the race track, and the Pacific coast has turned out a big share of the cars and drivers that have FLASH! FLASH! FLASH! Miss FLASH - Before many more brought us to this present pleasure
