Nation Imports

Foreign Wool

WASHINGTON, D. C. Oct. 15—While AAA was holding down production of wheat, corn and hogs, a flood of foodstuffs was pouring into the United States in the first six months of the current year. Figures furnished by the foreign and domestic bureau of the department of commerce tell the story.

With hogs raisers destroying pigs and receiving benefits, there was imported between January 1 and July 1, 1935, fresh pork amounting to 2,054,460 pounds, compared with 98,056 pounds in the same period in 1934, an increase of 1,956,000 pounds.

Figures Show Increases

Figures following show the net increase of the specified commodities imported the first six months of 1935 over the same six months in 1934: Wheat, 7,106,000 bushels; corn, 23,033,000 bushels; oats, 9,911,000 bushels; barley, 4,768,000 bushels; rye, 7,907 bushels; peanut oil, 65,184,000 pounds; cottonseed oil, 122,163,000 pounds; butter, 21,323,000 pounds; tallow, 176,615,000 pounds; edible fats, 8,295,000 pounds; canned meats, 23,136,000 pounds; meat products, 35,136,000 pounds; fresh beef, 6,075,000 pounds. Even tomatoes in their natural state show 22,000,000 pounds more than the first six months of 1934. Imports of onions over the comparable period amounted to 13,000,000 pounds.

Harry Hopkins, FERA, said the hides from cattle bought for relief, but hide dealers objected to the government disposing of them. Hopkins has impounded his hides and meanwhile 28,300,000 pounds more green hides were imported in the six months than in the same period a year ago. Cottonseed oil and oil cake meal jumped from 757,714 pounds to 57,368,182 pounds. Dried beans jumped from 5,028,000 pounds to 28,324,000 pounds.

Food Prices Rise

Blamed on AAA

WASHINGTON, Oct. 6—Charging the "consumer is the forgotten man" of the new deal, the Liberty league said today that retail food prices have advanced an average of 32 per cent during the AAA's life. It asserted consumers already had contributed \$920,000,000 in processing taxes, \$280,000,000 appropriated from the treasury and faced possibly

heavy losses from operations of the commodity credit corporation. Taking 33 per cent as the food share of the small-wage family budget, the league said:

"On this basis the normal outlay for food from a \$2000 income is \$660. An increase of 35 per cent in food prices would add \$231."

A 148 per cent boost in lard price was listed as the peak advance during the AAA, while pork chops were put at 118 per cent and bread at 26.

The league said that if Secretary Wallace "decides to attempt to enforce" the potato control act, it "will mean a very considerable increase to the budget of most consumers." It added:

"The consumers of the country who comprise the entire population, are paying the costs of misguided experimentation."

Under OUR Constitution

By RAYMOND PITCAIRN
 National Chairman
 Sentinels of the Republic

This is Constitution Week.

Throughout our nation thousands of men and women who love America are paying grateful tribute to the Charter which is at once the soul and the substance of our freedom. In many communities great meetings are being held to observe with impressive exercises the anniversary of its signing.

This observance is more than a formal ceremony. It is a nation-wide tribute to the tremendous contribution which our Constitution has made to the rights and the happiness of humanity. And it is a tribute well earned. For—

Under Our Constitution:

The persecuted have found Refuge . . . the despairing, Faith . . . the oppressed, Liberty . . . the courageous, Opportunity.

Under Our Constitution:

All men have attained the highest human aspiration—the right to be free, in body and in spirit. All children are assured the richest heritage possible—the right to be educated. All citizens are guaranteed the greatest power known—the right to govern themselves.

Under Our Constitution:

The People rule. No man is King; no man a subject. Despotism is outlawed. The Will of the People is the Law of the Land.

Under Our Constitution:

The United States has achieved a growth in territory, in population, in resources and in influence unrivaled among nations.

Under Our Constitution:

The Constitution of the United States was made for us, the people. All power to change it or to weaken its safeguards rests finally in our hands. Today certain forces, greedy for power, threaten to wrest that control away. Don't let them succeed. Don't let Bureaucracy usurp the authority which, under the Constitution, is ours alone. Don't let the politicians destroy those rights which our fathers won and we must preserve.

IT'S THE BIGGEST RADIO SCOOP OF 1936

We are now showing THE REVOLUTIONARY NEW STEWART-WARNER FERRODYNE ESPECIALLY DESIGNED FOR METAL TUBES

WARNING!

FOR EQUAL PERFORMANCE METAL TUBES ARE NOT INTERCHANGEABLE WITH GLASS TUBES.

AS LOW AS \$5 DOWN SPECIAL EASY TERMS

The greatest twin developments in radio today. Metal tubes and the exclusive new Ferrodyne Radio. Amazing round-the-world reception. Nothing like it ever before. Beautiful Craft-Built cabinets. See and hear the sensational 1936 Stewart-Warner Ferrodyne, now on display.

Leaf tobacco being sold to highest bidder

From 1900 up to 1934 the leaf tobacco used for cigarettes increased from 13,084,037 lbs. to 326,093,357 lbs.; an increase of 2392%

It takes mild ripe tobacco to make a good cigarette.

During the year ending June 30, 1900, the Government collected from cigarette taxes \$3,969,191

For the year ending June 30, 1934, the same taxes were \$350,299,442 an increase of 8725% —a lot of money.

Cigarettes give a lot of pleasure to a lot of people.

More cigarettes are smoked today because more people know about them—they are better advertised.

But the main reason for the increase is that they are made better—made of better tobaccos; then again the tobaccos are blended—a blend of Domestic and Turkish tobaccos.

Chesterfield is made of mild, ripe tobaccos.

Everything that science knows about is used in making it a milder and better-tasting cigarette.

We believe you will enjoy them.
