

Did You Ever Stop to Think?

By EDSON R. WAITE Shawnee, Oklahoma

The belief is taking root that politics is now becoming a profession, and the people are becoming tired of the meagerness of results produced by the professional politicians.

The American and Canadian people are a peace-loving people. They peacefully object to any curbing of personal freedom and are willing to make heavy sacrifices in paying taxes. They live in hopes and expectations of the lightening of the tax burden, but day by day they are asked to add to the burden.

It is hoped the time is not far

away when the politicians will discover that the people are beginning to realize that the brightly pictured results promised by the politicians have produced few results besides added taxes. This fact cannot be camouflaged much longer. The average citizen sees through this and sometimes has bitter things to say, but, with a shrug of the shoulder, carries on, trying to make the best of it.

THE TAX PROBLEM IS THE BIG PROBLEM BEFORE THE PEOPLE TODAY!

ger car bodies. The extra room provided permits male passengers wearing stiff-brimmed hats to lean back in the rear seat without touching the top."

Several inches of extra leg room is also provided for rear seat passengers in the 1936 LaFayette. The body designers at Nash accomplished this comfort feature by recessing the bottom of the back section of the front seat. Several inches were cut away from the base of the front seat, permitting additional foot room for people riding in the rear.

C. L. Hopkins Buys Service Station on Riverside, Medford

C. L. Hopkins has purchased the Leonard Texaco super service station at the corner of North Riverside and Jackson streets in Medford and is making numerous improvements in the place. Mr. Hopkins has had years of experience in this business before coming to this valley and for the past three years has been manager of the Firestone Service store in Medford.

The sales room which is being remodeled will be very convenient and a comfortable waiting room. The lubrication department will be under the charge of Mr. Walden Manful, who has had mechanical training as well as actual experience. This department will be fully equipped with the latest equipment. The Texaco Check-Chart is used and a careful record of each job is made in detail. Mrs. Hopkins will assist her husband in the office.

Old friends as well as new are extended a personal invitation to call and get acquainted with the new station. Mr. and Mrs. Hopkins have purchased the Tou Velle country estate and with their son Curtis, will be permanent residents of the valley.

Pierce Allen Co. Show New Dodge

The Pierce-Allen show room open-

ed last week with a number of 1936 Dodge cars on display. This car is proclaimed by many as the most beautiful of the new 1936 models. Comfortable, "chair-high" seats, expensive upholstery and trimming, new design windows and foot rests, add much to the comfort and room-

iness of this car.

The new driving control makes handling effortless. Driving one of these new cars is more safe and pleasant than ever.

W. W. Allen invites the public in to see these new cars, whether planning to buy a new model or not.

In the Auto World

1936 LaFayette Has Back Seat Comfort

Unsolicited praise for the engineers who designed the bodies of the 1936 LaFayette is reaching the Nash factories, according to Walter W. Abbey, local Nash and LaFayette dealer. Mr. Abbey says: "The 'Forgotten Man of Motordom,' the back seat rider, has at last found a place where he can ride with his hat on. The New Nash entry into the low-price field has been streamlined without reducing the head room in

the rear quarter. There is 38 inches of space between the top of the rear seat cushion and the roof of the car.

"Nash engineers accomplished this by dropping the all-steel, one-piece floor several inches lower than the level used in most standard passen-

NOTICE OF FINAL HEARING IN THE COUNTY COURT OF THE STATE OF OREGON FOR JACKSON COUNTY.

In the matter of the Estate of INGA ERIKSEN, also known as Ingeberg Eriksen, deceased.

Notice is hereby given that the undersigned Administratrix of the above entitled estate has filed with the above entitled court her First and Final Account and Report as such Administratrix, and the Court has set November 18th, 1935, A. D., at 10:00 o'clock A. M., as the time, and the Courtroom of said Court in the Courthouse in Medford, Oregon, as the place for hearing objections, if any there be, why said First and Final Account and Report should not be approved, said Administratrix and her bondsmen discharged, and said estate closed. All persons are hereby notified to appear at said time and place and show cause, if any they have, why such relief should not be granted.

Dated and first published this 17th day of October, A. D. 1935.

IRENE POWELL, Administratrix of the Estate of Inga Eriksen, also known as Ingeberg Eriksen, deceased.

O. H. BENTGTON, Attorney for Administratrix. Oct. 17, 24, 31, Nov. 7

5 definite new radio gains guaranteed!

- 1 More stations to enjoy—weaker stations automatically made hearable by CentrOmatic Engineering. An almost unbelievable increase in number of short wave stations you can get.
- 2 Better, clearer tone—the liberated tone of the program itself, purified and rounded out to a degree of perfection hitherto unattainable.
- 3 Greater freedom from noise—both on the station and between stations. Short wave programs ordinarily drowned out, are revived by the extraordinary low noise level.
- 4 Easier, accurate tuning—for the first time the CentrOmatic Unit centralizes all the elements necessary for tuning in the station you select. True accurate tuning becomes simplicity itself.
- 5 Surpassing dependability—resulting from 90% less wiring and 104 fewer soldered connections.

Model 885Y—8 tube, American, police and foreign, plus U. S. weather band, superheterodyne Console.

In the CentrOmatic Unit all the essential radio elements are centralized for the first time, resulting in all the new radio gains listed above.

Liberal trade-in—liberal terms!

Don's Radio Service

407 EAST MAIN STREET MEDFORD, OREGON PHONE 608

...but, after all is said and done, it's the cigarette itself that counts

... the question is, does it suit you?

Now, when it comes to a cigarette that will suit you... you want to think whether it's mild, you want to think about the taste

That Chesterfields are milder and taste better is no accident...

The farmer who grows the tobacco, the warehouseman who sells it at auction to the highest bidder, every man who knows about leaf tobacco will tell you that it takes mild, ripe tobaccos to make a good cigarette.

In making Chesterfields we use mild ripe home-grown and Turkish tobaccos.

Outstanding .. for mildness .. for better taste

Parents! One child in every four of school age suffers from defective vision!

save precious eyesight

Don't let your child read or study in poor light. It causes eye-strain, headaches, and near-sightedness. You owe it to your child and to every member of the family to have your lighting checked. Let one of our lighting experts call on you with a sight meter and tell you just how much light you should have.
