#### THE TURNING POINT

"I love to watch the leaves turn to gold."  
"I love to see you turn to go."

#### NOR THE PROFESSOR'S

"Who originated football?"  
"I can't recall the surgeon's name."

#### KEEPING COMPANY

"Yes, I used to keep company with Jane. She's a fine girl."  
"I suppose you figured a man was known by the company he keeps."

#### BUSINESS IDEAS

"Tom is good company, pa."  
"I noticed, when I happened to look into the room last night that he was a sort of 'holding company.'"

#### OLD KNOCKER

Sabertooth—What do you think of this idea of giving votes to women?  
Skinpants—I'm agin it. There ain't one of them dames who could mark a ballot without hitting her thumb with the mallet.

#### JUST MUFFLED

John—So you think kissing shouldn't be allowed.  
Jane—Well, not too loud.

#### EFFICIENCY COUNTS

Percy—What would you say if I kissed you?  
Jane—It would depend upon how much of a success the operation was.

### Auto Owners Urged To Register Early

Secretary of State Earl Snell is urging that all motor vehicle operators apply for their 1937 license plates as soon as possible. It is estimated that approximately three hundred and fifty thousand motor vehicles will be licensed in Oregon during the coming year, and since a large percentage of these will apply about January 1st, applications received prior to that time will not only secure immediate service for the applicant but aid in reducing the peak registration load in the motor vehicle department.

As in previous years, the receipt of registration, properly filled out on the reverse side, together with the fee of \$5.00, comprise the complete application for re-registration of a private passenger car which has not been changed or altered in construction or classification during the year.

### Civil Service "Schools" Have No Official Standing, Is Report

It has been observed that an advertisement was recently inserted in one of the daily papers by a so-called Social Security Counselor, this advertisement having been carried in the "Help Wanted" column and stating that many positions are available. The advertisement, undoubtedly paid for by a so-called Civil Service school, left the impression with those making inquiry that such so-called counselor could secure employment in the Social Security Board for them.

1. The United States Civil Service Commission has no agencies who solicit applications for Civil Service examination or positions, or who sell "Civil Service" courses.

2. It is not necessary to take a course with any so-called Civil Service school in order to compete in any of the Commission's examinations.

3. The basis of rating many examinations is entirely or in part actual experience in the field of work being applied for, which no "school" can supply.

4. No Civil Service "school" has any connection whatever with the Civil Service Commission or with any other branch of the government.

5. No "school" has advance information regarding the need of Civil Service employees, or the announcement of examinations. (Such schools daily offer courses in preparation for Federal Civil Service examinations which the Commission has no intention of announcing.)

6. No "school" is given information regarding examination questions or any other information which is not available to the general public.

7. No "school" can properly guarantee Government employment.

8. The Commission does not recommend any "school".

9. The public may obtain free and authentic information with respect to any examinations pending by making inquiry of the Secretary, U. S. Civil Service Board of Examiners, at any first or second class post office, from the Manager, Eleventh U. S. Civil Service District, Seattle, Washington, or from the U. S. Civil Service Commission, Washington, D. C.

The first objective of the 1936 Christmas Seal is to find all the unknown cases of tuberculosis, if possible.

### Eugene School Paper Winner of Trophy

University of Oregon, Eugene, the "News" of the Eugene high school was named as winner for this year of the Arnold Bennett Hall trophy, awarded for the best high school paper in Oregon. It was announced by Howard Kessler, chairman of the awards committee of Sigma Delta Chi, national journalism fraternity at the University of Oregon. The society has conducted the contest for several years.

Other awards in the contest were announced as follows: Guard cup for best paper in schools of over 600 students, "Post" of Franklin high school, Portland; Register trophy for the best paper in schools under 500, "Lantern" of Pendleton; Harris Ellsworth trophy for best notes in local paper, Baker high school; Eric W. Allen cup for best mimeograph paper, Carlton.

Winners last year were Benson Tech of Portland, Hall cup; Klamath Falls, Guard cup; The Dalles, Register cup; Independence, Ellsworth cup, and Commerce of Portland, Allen cup.

Judges for the event were Eric W. Allen, dean of the school of journalism, and Charles M. Hulton and Robert C. Hall, faculty members of the school.

### Progress Made on Conservation Program On Oregon Farms

Further progress is reported on the 1936 agricultural conservation program in Oregon, although plans for 1937 have not been announced, according to N. C. Donaldson, executive secretary. The state committee has completed its work in setting the total county soil-depleting bases and forwarded its recommendations to Washington for the approval of the Agricultural Adjust Administration.

As soon as approval has been obtained, the state committee will certify to each county committee the total county soil-depleting base for the county. It will then be the duty of the county committee to adjust the individual farm soil-depleting bases to whatever extent may be necessary to make them balance with the total county soil-depleting base. When this has been done and the work checked by the state committee, the individual applications for grants can be made out.

Plans for the 1937 agricultural conservation program involve a number of problems. One of the problems, according to AAA administrator H. R. Tolley, is to get a program which will fit in with the situation in the drought states. Other problems have been presented in the suggestions made in community meetings held all over the country. The suggestions and problems are being threshed out in a conference of representatives from the state. Some consideration is also being given to the 1938 program which should perhaps be referred to as the 1938 state programs. As the federal law now stands, each individual state will have to work out a plan for carrying on the soil conservation work after January 1, 1938 in a way which will meet with the approval of the secretary of agriculture.
