A THOUGHT for the week.

By Archie Parker

How much religious LIBERTY do we grant our fellow man? Do we have to resort to rituals and books written in ink, or the ten commandments written on tables of stone for our liberty? We will find our answer in the Bible, read Second Corinthians, Third Chapter.

EDITORIALS

THE AGE OF REASON????

In considering the reasons given by proponents of reorganization plans for the United States Supreme Court, one comes to some "blank wall" conclusions.

If seventy years should be the retirement age for Supreme Court Justices, why not for U. S. Senators and Representatives? If a man past seventy is no longer capable of considering governmental, legal and economic problems on the bench, is he any more capable of considering them in Congress?

Supposing younger judges had rejected the same acts of Congress as unconstitutional, as did the present court? Would there be agitation for their removal?

Many laws proposed by Senators and Representatives under seventy years of age do not lead one to have confidence in their intelligence.

The egotism of a younger generation is often astounding, but in the present case it passes understanding.

First Grade News

The following items were written by pupils in the first grade at the Central Point school as part of their regular school work for the purpose of increasing their vocabularies. They will appear each week:

Wednesday, March 10, 1937
We know Spring is coming before long. Rolly has planted a garden of his own. Barbara's little bantam hen is sitting on 14 eggs. She will have to stay on her nest three weeks before the baby chicks will hatch. George's radishes are coming up.
Some of his flowers are coming up too.

Shirley's uncle got hurt. A limb fell and hit him on the head. He lives in Klamath Falls. We have a new girl. Her name is Louise Martel.

High School Notes

Every student is very proud of the beautiful basketball trophy which the Pointers won as a result of being county champions.

Under the leadership of Miss Durette a group of G.A.A. girls climbed lower Table Rock Sunday afternoon.

The freshmen and juniors are now taking the two-weeks driving course. According to all reports, the junior play "The Tin Hero" was much enjoyed.

Roberta Pankey saw "Champagne Waltz" at the Craterian theatre.

Clarabelle Brood, Bill Grimes, Avys Ayers and Blue O'Connor motored to Provolt Sunday afternoon.

George Curtright motored to Ashland Sunday afternoon.

Kenneth Hood visited his sister in Medford Sunday afternoon.

Eugene Humphrey, Norman Hansen and Stanley Jones bicycled in

Drive Made to Sell Surplus Canned Pears

MEDFORD, Ore., March 10—Oregon pear growers were heartened this week by assurance a threatening surplus of canned Bartlett pears will move to the nation's markets next month.

David Rosenberg, chairman of the Medford Pear Growers' Committee, announced chain stores from coast to coast agreed to stage an energetic sales drive featuring Pacific coast canned pears.

Cooperation of the National Association of Food Chains was obtained through the recently formed Pacific Coast Canning Pear Stabilization Committee, which represents Oregon, Washington and California growers.

The committee appealed to large distributors for concerted action, explained growers faced serious losses on their 1937 crop if a large carry-over of the 1936 pack remained in canners' warehouses.

The west coast's \$9,000,000 annual pear crop was threatened by this situation, according to agricultural experts.

There was a carry-over on June 1 of one million cases.

The 1936 pack was more than

five million cases, compared with an average pack of 4,185,000 cases.

November and December exports in 1936 totalled only 15,000 cases, whereas \$99,000 cases usually move in that period.

Analysis of those statistics indicate 48,000,000 cans of pears must be sold before growers can hope for normal prices for their 1937 crop.

The Medford committee includes:

David Rosenberg, Robert Norris, ter Leverette, Earl Newbry and H. Leonard Carpenter, Ray Ward, Wal Van Hovenberg.

FLYING KITES

Dear Children:

Now that Spring is here and the ideal weather for flying kites has arrived, I want to give my little friends a few tips about kite flying.

Never fly your kite near electric lines or use wire for kite string as you are liable to be injured from contact with the electric lines. Even a damp cotton string is a conductor of electricity, so be very careful and always fly your kite in an open space where there are no electric lines. I certainly do not want any of my little friends to be injured while playing.
