MORE USABILITY

MORE VALUE

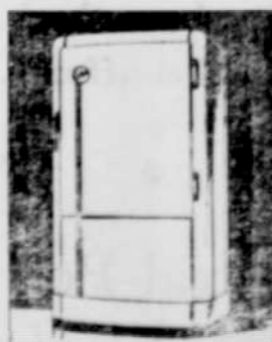

per dollar!

The designers of the new Gibson started out to give you the biggest dollar's worth in refrigerator history. Their ultra-modern plans made possible the "biggest refrigerator for its size" in America . . . the MOST usable space for your money!

GIBSON Usability

Look at the diagrams. . . they show how the new GIBSON is actually larger in usable space than others of the same rated size. The revolutionary new Freezer Shelf is the secret. It eliminates the space-eating box-type freezer with its connections—provides another useful shelf. And Gibson favors width rather than depth—bringing everything "up front." Yes, Gibson gives you more space for your money! And Gibson gives you other "PLUS" conveniences, other hidden values. Call and see the Gibson—get the whole story first hand!
