Air Circus To Come Tomorrow

The air circus to be held at Medford municipal airport on July 2 will be the biggest event of its kind ever held in Oregon. It was declared by Max Pierce, president of Medford chapter of the National Aeronautic association, local sponsor, and head of the Oregon Aviation Development Committee, Inc., in charge of the ten city aerial carnival which will have its start here.

The show will consist of three parts, Mr. Pierce said. One part will comprise a display of a quarter of a million dollars worth of privately-owned aircraft. All types of planes will be shown, from the cheapest to the most luxurious. Mr. Pierce stated. The ships will be lined up for public inspection from daylight to dark, he added.

Second part of the show will be a demonstration by various airplane manufacturers. This will include flights to show the planes' stability, maneuverability, speed and facility of handling in take-offs and landings, Mr. Pierce related. With the rapid strides made in recent years in the development of aircraft, some astonishing demonstrations can be anticipated, he asserted.

Third part of the circus will comprise what Mr. Pierce described as the greatest array of stunt pilots and parachute jumpers ever to appear on the same program anywhere in Oregon.

Among the talent engaged for the show are Dorothy Barden, girl parachute jumper who has made more than 300 spectacular leaps from lofty heights, and Don Cook, considered the outstanding male parachute jumper in the United States and a frequent performer for motion pictures. A feature jump evolved by Cook himself is called the "break-away" leap. This jump, Mr. Pierce said, is guaranteed "to pull the spectators out of their seats."

Art Leary will present his famous clown act, commonly called "crazy flying." The act is intended to depict the flying of a farmer who goes up after completing the first half of a correspondence course which teaches him how to take off. After he gets into the air he remembers that he has not studied the second

half of the course which teaches him how to get down. His plight is vividly, humorously and thrillingly depicted by Leary, Mr. Pierce asserted.

Bernadine Lewis King, rated as the champion woman stunt flier will present her own version of spectacular flying. Her specialty is flying upside down at 100 miles an hour. In addition she can put her specially constructed plane through all the intricate and hair-raising stunts usually performed only by men. She also does sky writing and has been engaged to hang several smoke signs in the air at 10,000 feet which can be seen for 20 or 25 miles.

As a climax Tex Rankin will take to the air to perform all the breath-taking stunts for which he has become famous. Formerly chairman of the Oregon state board of aeronautics and now a performer for the movies in Hollywood. Rankin recently won the right to call himself the world's champion stunt flier at an international contest in St. Louis in which the leading dare-devil pilots of all parts of the world competed.

VINCENTS TO LEAVE FOR ANNUAL VACATION

Mr. and Mrs. Ed Vincent will leave for a vacation trip to Eastern Oregon, Napa, Bolse, Enterprise and attend the State Convention of State Rural carriers at Pendleton. Mr. Vincent is in charge this year as he is president of this organization.

CARNATION CLUB MEETS AT DOROTHY ROOT HOME

The Carnation club met at the home of Dorothy Root last Thursday. The following members were present Mesdames Bessie Fernland, Alta Kelly, Donna Brenner, Lois Richardson, Ethel McCoy, Mary Langston and Mrs. Marie Putney of Medford.

Mrs. Benner's birthday was remembered and she received many lovely gifts. A miscellaneous shower for Mrs. Fernland was enjoyed. She received many dainty gifts.

Games were played after which dainty refreshments were served by the hostess, Mrs. Root.

Welding and repair work done at the Central Point Hardware.

CITY CAR DEATHS MOUNT

Automobile fatalities in 85 major cities during the four-week period ending June 5, 1937, totaled 589 according to statistics culled by the Oregon State Motor association. This figure was above the 545

deaths reported for the previous four-week period and also over the 578 reported for the four-week period ending June 6, 1936.

Mr. and Mrs. Jack Lees received a letter from their son Jack who is in the Navy and now at San Francisco saying that he would have two days

leave, July 5th and 6th, and requested that they visit him in San Francisco where they could have a good visit and a fine time. But owing to the heavy traffic and the short time they decided not to make the trip.

Tennis nets and balls. Central Point Hardware.

The "WHY?" of Oregon & Washington Mortgage Co.

"A Financial Institution For The Individual"

The locally owned and managed company that has made borrowing money as easy as opening a retail charge account

WHY It Was Established

All merchants borrow money from banks to carry on their business affairs. But banks are interested principally in dealing with business men and commercial organizations which have need for money IN LARGE SUMS. They cannot profitably make loans to families who have need for comparatively small amounts of money.

But when families need money there is no reason why they should be turned down merely because they cannot use it in sufficiently large quantities to obtain it from a bank. Everything else that a family needs like meat, eggs, flour vegetables clothing, etc., is made available in small quantities AT RETAIL RATES.

That is why Oregon & Washington Mortgage Co., Inc. was established—to make it possible for you to obtain money in any quantity, up to \$500 just as easy as CHARGING IT at a retail store.

WHY We Lend Money On The Retail Basis

The retail merchant makes his money on the difference between the amount he pays for an article on a wholesale basis and the price he charges you. In the majority of cases his margin of profit is LARGER than the amount we charge you in interest on the money you borrow.

Loans are made on chattels, such as household goods livestock automobiles etc. The amount of security required may vary, depending upon the earning capacity of the borrower and the amount of the loan.

Repayment is made monthly and we charge interest ONLY ON THE UNPAID BALANCE for the exact number of days at the time each payment is made. We charge no brokerage, service or investigation fee. The total cost of a loan is regulated by the manner of repayment and all loans may be paid in full at any time.

Benefit TO THE CUSTOMER is our first consideration in making a loan. Purchasing goods that contribute to the happiness and welfare of the home at a cash saving, or consolidation of debts to reduce the monthly outlay of cash are highly constructive purposes for borrowing money.

WHY NOT

Let us show you how easy it is to CHARGE any amount of money you need up to \$500. Accounts opened in 15 minutes or less.

Our staff is thoroughly experienced in regulating family finances and is ready to help you solve your financial problems at any time.

We charge no brokerage, service or investigation fee.

You are under no obligation of any kind.
