WHY WOODEN BOX WEEK Wooden Box Week is being observed this year in communities up and down the entire Pacific Slope, during the week of June 5 to 12.

And why-because Federal Re serve Bank figures show the 60% of all income on the Pacific Coast is derived from the Wooden Box and Lumber Industry.

Sixty per cent-three-fifths of every dollar in your pocket at this very moment has been derived directly or indirectly from the Wooden Box and Lumber Industry.

If you are a butcher, baker, gro cer, newspaper man, doctor, lawyer oil man ,farmer or what not, if you live from the income of real estate or bonds 60% or three-fifths of all your income is derived directly or indirectly from the Wooden Box and Lumber Industry.

Thousands of people are employed in the industry and their payroll checks along with the purchase of supplies and tax payments for the industry constitute the sole support of some communities.

When the Wooden Box and Lumber Industry declines other businesses immediately feel the effect their businesses decline too.

A healthy Wooden Box and Lumber Industry on the Pacific Slope is good assurance of a healthy condition for other lines of business.

Wooden Boxes mean more to the Wooden Box and Lumber Industry than just the actual amount of lumber consumed in their manufacture The lumber used in the manufacture of wooden boxes is a vital one-third of every log. It is the inner part of every log, with many knots. It is, lumber that cannot be used in ordinary commercial channels. So that if the lumber industry did not dispose of it for wooden boxes it would have to obtain more for the clear grades of lumber or go out of busi-

The knotty lumber can be used for the manufacture of wooden boxes, because only short lengths are needed and the larger knots and defects are cut from the boards.

Thus Wooden Boxes utilize a grade of lumber which might otherwise be wasted. The use of wooden boxes then is a direct forest conservation measure. More of every tree cut from our forests is put to a useful purpose. There is less waste. It aids in supplying higher grades of lumber to the consumer at lower cost.

The many thousands of people engaged in the Wooden Box and Lumber Industry have set aside the week of JuJne 5 to 12, to devote it to informing others about the industry, its place in the community and how we can all work together to make it and other industries better assets for everyone.-Wooden Box News

#### IN THE RIGHT DIRECTION

A Congressional Committee has concluded an exhaustive study of the Social Security taxing system and has made several commendable recommendations for changes.

One of the recommendations vitally affects the pay envelopes of more than 30 million workers, for it concerns the amount of taxes that are extracted from wages. At present workers have 1 per cent of all their earnings turned over to the government for a so-called Social Security fund even before the wages are paid. And the present law calls for an insrease in that rate next January 1, to be followed by additional increases until the tax reaches 3 per

On this point, the committee has recommended that the 1 per cent rate be "frozen" for the time being. and any increase be postponed until 1943.

This action is a wholesome indication that some Congressmen, at

least, are becoming aware of the | tion. He is a man, minus pride, amwill approve these recommendations, but it is to be hoped even more that revision of the taxing system will not stop there,

The farmer, the industrial worker, the housewife and the businessman are burdened with unprecedented taxes that have been levied to pay th extreme high cost of running tle hope of a real recovery.

### Heres A Description Of An Average Boy

The following description appeared in a recent issue of "The Beacon," Glendale high school paper.

After a baby has grown out of be wasted. The industry would long clothes and has acquired pants nd freckles and so much dirt that well meaning relatives do not dare to kiss it between meals, it becomes

> A boy is Nature's answer to the claim that there is no perpetual mo-

dangers of too heavy taxation, which bitlon, pretense, greed and about takes purchasing power out of the 110 pounds. When he grows up he hands of the public. It is to be will trade romance, energy, bashfulhoped that the House and Senate ness, warts, and a snag-proof stomboy is always getting the worst of it in some trade or another.

The world is so full of boys that it is impossible to touch off a band or a baseball game without collecting a thousand of them. If it were not for the boys the newspapers of the present complicated Federal the country would go undelivered government. Until this tax burden and unread and a thousand circus can be lightened-and the expenses elephants would die of thirst. Boys of government reduced-there is lit-; are also useful in running errands. The zest with which a boy does an errand is only equalled by the eagerness with which an old fashioned minister approaches the conclusion of his sermon. With the
