Clubwoman: Wageman: Homewoman—

SHE'S THE SAME PERSON, when she goes to a store.

At her club meeting, it's kind of fun to hear some radical lecturer "prove" that most manufacturers are slickers, most store cheese is chalk, and most advertising is ballyhoo.

But watch the clubwoman when she starts buying. She wants her money's worth and she gets it. How? By first consulting the advertisements. Then by choosing the products she knows—the trade-marked, nationally advertised products that have been on the market for years.

Those trade-marked, advertised articles are the ARISTOCRATS among all the things she buys—or that any of us can buy.
