man, and has helped in winning many games for Central Point. At right half Wenting Hilkey, also a three year letterman, who shifted from a guard position to play at right half this year. Ben McManama alternated at this post and will also be lost by graduation.

Quarterback position was held down by Bob Vincent, a senior, who played this year for the first time, and Hal Jewett, another senior, saw action in all the games and played very nice ball.

In the line Blasing, a three year letterman at end who turns in such good defensive work, has played his last game and Chet Grimes at left end, a senior who came out for the first time this year and earned a starting position, will also be lost. Both tackles, Seymour and Blaine, will graduate come spring and it will be a difficult task to fill their post. Wayne Vincent, a starting guard, will graduate, after performing for his first season, and two centers Harvey Taylor and J. E. Jones have played their last game in Pointer uniforms.

Returning next year for more play-

ing will be several lettermen but only three first stringers. Jim Pierce, a two year letterman at left half and Dick Smith, a guard and center for another year of competition. Cassman, a two year letterman at guard, will return for further play.

In the backfield Burke Pinkham, a sub at quarterback and only a freshman, will be back for more action and Phillips, a junior left half, who suffered a broken rib which left him out of several games, will be back for another year. At fullback John Pinkham will be returning.

A pair of fine ends in Colley and Proreich, sophomore subs will be back for two more years of play and much is expected of them. Thompson, a junior, will return for another year at a tackle position. Holt, a sophomore, will also be back. Rector, a sophomore guard, has two more

years of play, and Freeland and A. Hilkey, both freshmen, return for three years of competition.

With this squad as a nucleus a good team may be developed next year.

The loss of about ten lettermen is hard to make up but many new prospects may develop.—By Woodrow Phillips.
