A recent letter from Chester, England, reported that some relatives from Yorkshire visited there for a number of days and were anxious for an air raid alarm as they had never been in a raid or even heard an alert sounded. At Yorkshire they would never know from actual experience there was a war.

She—My! How monotonous.

Rancher Tells Good Coyotes May Do

An opinion expressed by a Lake Creek rancher in regard to coyotes.

When they first moved to Lake Creek they could hear the coyotes howl all around them, but they were not bothered with jack rabbits or ground squirrels or gophers. Now they have no coyotes but are greatly bothered with those other pests which do more damage than the coyotes ever did. Perhaps if there were a greater number of coyotes they might do a great deal of damage.

They also found the same thing true of hawks, they kill many mice and other small insects that do more damage than the hawks, they kill many mice and other small insects that do more damage than the hawks. If a hawk is caught carrying off a chicken, shoot him for he will come back for another, but very few hawks bother the chickens.

This is the opinion of one rancher.

Dog Control Board Consults Co. Court

The Jackson county dog control board met with the county court Tuesday afternoon to take up matters connected with the collecting of dog licenses throughout the county.

It appears that during the past year not enough dog tax money was collected to pay for depredations of dogs throughout the county. So the county court asked the dog control board to bring this to the attention of their collector and urge him to try to make a more thorough checkup this year. It is a well-known fact that there are many dogs in the county on which no tax is paid and the court is anxious to have this situation improved.

NOTICE

The W. R. C. will give a silver tea Saturday at the hall after the regular meeting at 3:30. Every one is invited.

Rynning Returns From Eastern Trip

Paul B. Rynning, county engineer, returned Sunday evening from New York, where he attended the national convention of the American Road Builders association as a delegate from this county. Mr. Rynning was on the program of the counties division of the convention.

Mr. Rynning attended the annual meeting of the Redwood Highway association in San Francisco several weeks ago and left from there for the East. Following the New York meeting he stopped for a brief visit with his mother in the Mid-west, returning by way of Minneapolis, Spokane and Seattle.

All through the East signs were evident of the intense activity caused by national defense contracts. There appears to be a shortage of skilled labor in many lines and all factories are humming.
