

### Sport Gags

By K. D. P.

Talking with one of the farmers the other day, I was startled to hear of something that is rotten somewhere. He stated that a couple of years ago he made a report to one of the irrigation companies that he was finding too many young trout in the irrigation ditches that run through his farm.

He was promptly told to shut up and not make a report or the company would shut down the water through his place. That farmer is a true lover of fish and game, but yet he has to make a living off from his farm so naturally he shut up and never made a report.

Out of curiosity I asked a couple of farmers in the valley near here and I was amazed to hear the same story. And now to ask me to reveal the names of the farmers is something I will never do because I have given them my word.

Well, any company that threatens any farmer with the closure of the water through his farm, must be guilty. The company must have known that their screens were not working properly in conformity with the law. The trouble is that too many of the dams are hidden way off from the road and sometimes it takes quite a bit of travel to find the fish screens from the dam.

It would be a simple matter to just let the screen work go to the dickens and it would be a whole summer before anyone discovered the defect.

All fish screens may be in good working order but there's something rotten in Denmark when the company would threaten the farmers with the closure of water if they revealed to the game commission that there are fish in the irrigation ditches. There're fish in there all right for three different farmers distinctly told me that they have a nice mess of trout without having to go a long distance. They were caught out of the ditches, and actually with shovels.

### Juniors to Fete Seniors With Banquet May 16

Much progress has been made by the juniors in their preparation of the annual junior-senior banquet which is to be given May 16 at the high school.

The committees for the banquet were appointed about two months ago. The theme, which the juniors think will greatly please the seniors has been chosen but will not be disclosed until the evening of the banquet. This theme will be carried out in minute details with the senior class colors, purple and gold, predominating.

The seniors are looking forward to this banquet as it will be one of the last events of their high school days.

J. H. Rogers has purchased the Finley house across from Hansons. Mr. Rogers is an employe of Copco.

### Enlistments Open For Naval Reserve

Enlistments are now being made in the Naval Reserve of men between the ages of 17 and 35 for four years or period of national emergency. Applicants for Naval Reserve may enlist for the training of their choice and if qualified will be sent to the vocational school they chose. Included in these schools are the aviation mechanic, aviation metalmith, electrical, machinist, woodworkers, clerical and radio schools. Men who enlist in the Naval Reserve receive the same pay and advancement as the regular Navy and duties are performed on board ships of the regular Navy. In the event that a man is returned to inactive duty prior to the termination of his four enlistment, he may change over to the regular Navy.

High school students who plan to enter the Navy or Naval Reserve after graduation are urged to make application now so that their enlistment papers may be completed by the end of the school term.

### Members of Chorus Enjoy Music Festival

Along with five hundred students of other southern Oregon High Schools, the Central Point girls' chorus attended the music festival at Ashland last Friday.

Dr. Theodore Kratt, director of music at O.S.C., was conductor of the festival.

The choruses practiced from ten o'clock until noon. At one o'clock the choruses reassembled and listened to various vocalists. Later under Dr. Kratt's direction the combined choruses sang the following selections: "Sombre Woods", "Children's Prayer", "Let All The World in Every Corner Sing", and "Amourer's Song".

### Seniors Make Rapid Progress with Annual

The material for the annual has been compiled by the staff members and has been sent to the printers. A two-weeks annual sales drive was recently completed.

The members of the annual staff under the leadership of the editor, Shirley Kincaid, and the business manager, Bernice White, have been working hard since last fall toward the production of the annual. All material was placed in the dummy and sent to the printers on April 17. The annual is expected to be ready for publication about the middle of May.

The annual this year will be somewhat different from the annuals of previous years. All material has been kept under cover so that it will be a surprise.

A two-weeks sales drive, under Hal Jewett, sales manager, was conducted from April 14 to 25. During the drive about ninety annuals were sold.

Buddy Berry, who was in an accident last week, is doing fine and expects to return to school next Monday.

### Learning While Recovering

Negro girl, recovering from tuberculosis, receiving instruction in art. Tuberculosis associations are conducting campaign this month to find persons with early tuberculosis.

### Many Farm Loans Made in County

Jackson County farmers and stockmen are using over one and one-quarter million dollars of Farm Credit Administration loans, according to a joint announcement made this week by the secretary-treasurers of the local credit associations serving the county.

Warren Patterson, Medford, secretary-treasurer of the National Farm Loan Association, which make and service Federal Land Bank loans locally, reported that on December 31 there was 434 federal land bank and land bank commissioner loans outstanding in Jackson County, for a face amount of \$1,191,350.

Bren H. Starcher, secretary-treasurer of the Medford Production Credit Association, reported that his association made 51 loans for \$250,714 in Jackson County in 1940. At the end of the year, 44 member-borrowers owed a balance of \$199,583.

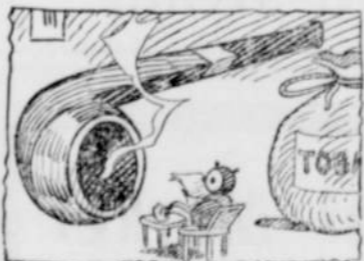

Both National Farm Loan Associations and Production Credit Associations are affiliated with the Farm Credit Administration. Land bank and land bank commissioner loans are made for the purchase or improvement of farms or for the refinancing of mortgage indebtedness on farm land. Production credit loans are made for the growing of crops and livestock.

### WILLOW SPRINGS

By Naomi Elden

Mrs. Frank Jones of Willow Springs Station spent the past several days in Portland with her father who is seriously ill.

Al Leighton has added to the attractiveness of his home by building a white picket fence around his yard.

Mrs. Effie Caster is having a new garage built on her place.

Sunday callers at the J. W. Elden home were Mr. and Mrs. George Elden and sons Donald and John of Grants Pass.

Mr. and Mrs. B. J. Palmer were Sunday dinner guests at the home of Mr. and Mrs. Arthur Phillips in Medford.

Mr. and Mrs. Milhoan, Mrs. Laird of Gault, California were dinner guests at Mrs. Effie Caster's home Tuesday evening. Miss Janet Bishop of Beagle spent Tuesday night at Mrs. Caster's home.

Mrs. W. W. Walker of Medford visited Mrs. B. J. Palmer Wednesday afternoon.

Miss Rose Jones was Wednesday evening dinner guest of the W. K. Parker.

### Senior Pennants Received Recently

The senior pennants have arrived and will be presented as a part of the program on senior class day.

The pennants are gold with purple lettering. At the top of each is a pointer dog outlined in purple and having purple spots. Below the dog and running lengthwise is the word "high" in scroll. Through it are the letters "C. P. H. S."

One of these pennants will be hung in the new gym to commemorate the year in which it was built. The other, according to school tradition, will be hung in the study hall.

### H. Brown Family

Leaves for Wash.

Homer Brown and family left this morning for Bremerton, Washington where he has work in the Navy yard as boiler and tank tester. Mr. Brown works seven days a week, Saturday, at time and a half and Sunday at double time.

Mr. Brown has rented his farm to Mr. Hodapp and his house in town to a man who works in the Sugar Pine Mill. Mr. and Mrs. Brown will be greatly missed in Central Point but he is to be congratulated on his good position.
