ODD ITEMS DISPLAYED—

The articles in the window at this office are being removed this week. They were all found in an old shed on the Hilkey place. The odd piece of machinery was a home made machine for making the groove on barrel at top for the cover. Every one knew what the fungus growth was and also the ox shoe. Many were interested in seeing them. The odd piece of wood was thought to be a diseased growth with the fiber twisted in every way. It was very odd. Fred Virtue is bringing in Indian shoe last, made from pigeon rock, that are very odd. These will be placed in the window.
