

Girls' League Conducts Christmas Seal Sale

The traditional Christmas Seal heralds the approach of the holiday season for the thirty eighth time as the Jackson County Health Association conducts the sale of these seals for the purpose of helping rid the world of tuberculosis.

In Oregon this year a huge mass x-ray program to offer chest examination to all the people is being attempted.

This costs money and a great deal of it comes from the sale of Christmas Seals.

The Girls' League will be responsible for the sale of seals here at Central Point High School, according to Anna Dale Coleman, president.

The Health Association urges everyone to buy Christmas seals and use them on all Christmas mail.

A New Fight Develops On The Home Front

Did you know there is a war going on right here in this country? This is the war against the dreaded disease of tuberculosis. If we take a part in this war against this disease, we will be helping not only our nation's health, but each individual of this nation. This is a terrible thing for a human body to fight. A person must have the right kind of care and medical attention to be restored to good health.

This year as of other years, the Christmas seals, are being sold in all parts of the country. These seals are sold for the purpose of raising money for a tuberculosis fund which is used for the state tuberculosis patients. These seals sell for only one cent, 1/100 of a dollar.

Are we willing to help in this war on the home front by buying our share of these tuberculosis seals?

"LIKE TO SWAP NIGHT CLUBS, PAL?"

"Sorry, chum—no ringside seats. You sit in the mud, see?"

"You got a floor show of lizards and mosquitoes crawling over your face."

"You got a nice little 4-piece orchestra of Jap mortars, Zeros, machine guns, and your best friend screaming in the next foxhole."

"Come any time, pal. The show goes on all night. For a long time. There's never a cover charge. Not even for the flag they put over you when they carry you out."

We're all human.

We all like to go dancing or see a show or

buy an extra suit or dress occasionally. But this war still has a long way to go. There are still 75 million Japs who don't believe in surrendering.

So during this 6th War Loan, how about putting all that luxury money into something a little more permanent—an extra \$100 War Bond at least—to help get this thing really over and bring those boys of ours home?

It'll hurt. But not as much as the Jap bayonet in your neighbor's stomach. You get something back—in ten years—\$4 for every \$3 invested. He doesn't.
