SUSY---

The store cat allows that:

With spring just around the corner, it behoves every ration pointed American to open the old garden pest, His Majesty, Pete Earwig. Clean up and burn all old debris, such as old boards, leaves, corn stacks, etc., and expose all earwig egg nests to the frost and cold weather. If the garden soil is mellow enough, turn top layer over with suitable fertilizer.

**BABY
CHICKS**
Soon Ready!

THREE FAMOUS STRAINS

NO GUESSING if you order chicks from our matings this year. They are headed by males that are superior to many matings from which chicks are sold at much higher prices. All flocks blood-tested and all reactors removed. Chicks from these matings can not be duplicated elsewhere.

HANSON STRAIN WHITE LEGHORN

This mating is headed by U.S. R.O.P. Males from 300 eggers for four generations. High henhouse average of large white eggs is sure to follow when you purchase chicks from this mating.

PARKS STRAIN BARRED ROCKS

The favorite all-purpose breed. This mating too has a liberal amount of 300 egg blood on both sides, individual pedigreed. Fast growing broilers and fryers are sure to relieve those red points. And they lay like leghorns.

CHRISTIE STRAIN NEW HAMPSHIRE

You get all 4 profit factors: fast growth rapid feathering, early maturing, early egg production, and plenty of them, headed by males whose dames were trapped at 280 eggs or better.
