NO RESERVATIONS NECESSARY

Primus Quirks,

Forecast clear weather for this week so we are enjoying rain. The old soak forecasts what he wants and takes what comes. Should write to his senator about it. Talking about senators maybe we need a new crop of them who have the good of the country at heart instead of politics. Write to them about the proposition of getting practical instead of political. Sounds good but will amount to a bunch of horsefeathers.

Will have a shipment of garden tractors soon also a new crop of water systems.

If you are going to do any nail driving this spring better start looking up the materials.

Eggs ooling down and feed prices high are causing a sad decline in the old hens who have been the household pets.
